OUR HERITAGE

At the 1904 World's Fair in St. Louis, Missouri, the O'Connor brothers experienced something totally new: imported coffee beans roasted over a gas flame. The resulting flavor and aroma inspired the creation of Ronnoco Coffee Company. Our headquarters and plant are located in St. Louis to this day.

Because of our family owned history, we are small enough to pay attention to the details that go into making great coffee and tea, but large enough to stay on the cutting edge of the rapidly changing beverage world.

FAIR TRADE, RAINFOREST ALLIANCE, & ORGANIC COFFEE

FAIR TRADE

Fair Trade ensures that farmers and workers get a fair deal for their hard work. This means better prices and wages, safer working conditions, environmental protection, and additional Community Development Premiums to invest in much needed projects like education, health care, and clean water.

Fair Trade empowers farmers and workers to build strong businesses and thriving communities in these ways:

- Sets a minimum price to protect farmers when the coffee market is down
- Provides access to finance and agricultural loans
- Ensures safety on the farm

RAINFOREST ALLIANCE

www.rainforestalliance.org

The Rainforest Alliance is a non-governmental organization that continues to work towards ensuring sustainable livelihoods by transforming land-use practices, business practices and consumer behavior.

Coffee with the green frog certification seal indicates that the coffee comes from a farm that has been audited to meet established standards for environmental, social, and economic sustainability.

ORGANIC

“USDA certified organic foods are grown and processed according to federal guidelines addressing, among many factors, soil quality, animal raising practices, pest and weed control, and use of additives. Organic producers rely on natural substances and physical, mechanical, or biologically based farming methods to the fullest extent possible.” (USDA.gov)

RONNOCO
BEVERAGE SOLUTIONS

There's a lot more to Ronnoco than just the Ronnoco brand.

Ronnoco offers unparalleled variety with over 35 proprietary blends and over 300 coffee offerings to choose from, including single origin, flavored and espresso. We also offer eight custom blended and flavored iced teas as well as a full line of assorted hot tea products and hot chocolate.

Ronnoco also has two branded programs: Coffee House and Henderson. These programs are supported by two roasting facilities, in-house blending and packaging of iced tea, the strongest selling cappuccino items, in-house graphic designers and print shop, and over 100 years of quality products and service.

Henderson Coffee (available in Oklahoma) is a unique part of the Ronnoco family of beverage solutions. Henderson has been providing leading-edge commercial beverage opportunities for Oklahoma-based customers since 1923.

RONNOCO COFFEES

Despite the wide variety of coffee origins, blends, and flavors, there are only two species of coffee grown commercially - arabica and robusta. Arabica is the premium and more flavorful species, while robusta produces a higher yield, lower quality bean. Ronnoco only uses 100% arabica beans.

**FAST
FACT**

Color dots indicate roast level for each blend.

TEAS & LEMONADES

FAST FACT

Tea or tisane? Tea is derived from the leaves of the *camellia sinensis* plant - an evergreen shrub native to Asia. Herbal teas are actually referred to as tisanes because they do not contain any leaves from the *camellia sinensis* plant. Tisanes usually, but not always, have less caffeine than tea.

Fresh Brewed Iced Tea & Lemonade

Half Batch (1.5 Gal.) & Whole Batch (3 Gal.)

Unsweetened Tea

COLD BREW

Cold Brew is less acidic than iced coffee with a smooth, mellow taste. Cold Brew is prepared using cold water instead of hot water. Traditional Cold Brew takes 12-24 hours to brew. Our concentrate allows you to mix 1 gallon of Cold Brew at a time for minimal waste.

Cold Brew sells throughout the day peaking in the afternoon. 90% of Cold Brew consumers add a flavoring to their drink. Gen Z and Millennials are the largest purchasers.

Ronnoco Black Ice Concentrate 7:1 16 oz. (Case 12 - 16) Item # 0762006200A

Fresh Cold Brew

Cold Brew is less acidic than iced coffee with a smooth, mellow taste. Cold Brew is prepared using cold water instead of hot water.

Traditional Cold Brew takes 12-24 hours to brew. Our brewer speeds up the process by continually pumping the water through the grounds for 60-75 minutes. The product is safe to drink for up to 12 hours if left unrefrigerated.

Cold Brew sells throughout the day, peaking in the afternoon. 90% of Cold Brew consumers add a flavoring to their drink. Gen Z and Millennials are the largest purchasers.
