HU35025 Universal Pressure Tester Accessories

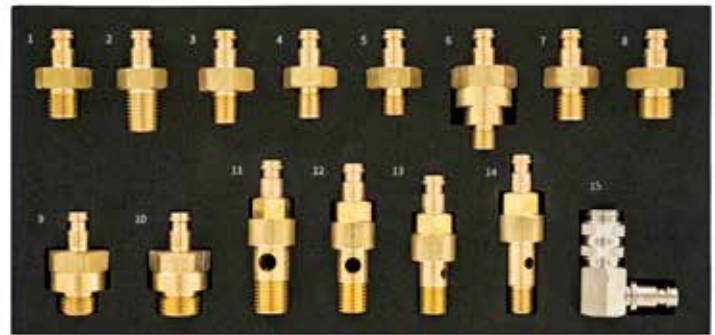

HU35033 Engine & Turbo Oil Pressure Adaptors Set

New accessory to work with the HU35025 Universal Multifunctional Pressure Test Kit.

14 universal brass adaptors easily replace oil and turbo sensors, providing a quick coupler adaptor fitting to connect the HU35025 Universal Pressure Tester.

- Test and record oil and turbo pressures for warranty and customer records
- 10 x adaptors to fit most of the Oil Pressure Sensor
- 4 x adaptors fit the most Turbo Banjo
- 1 x 90° quick connector

HU35027 Cylinder Leakage Tester

New accessory to work with the HU35025 Universal Multifunctional Pressure Test Kit.

Even the smallest differential in compression pressures can effect engine behavior and performance.

Test and record each cylinder's pressure drop over a set period of time.

Cylinder leak tests are the only accurate way to test the power balance of every cylinder on any ICE engine coniguration.

- Connects either directly to the HU35025 Universal Multifunctional Pressure Tester Sensor Quick Connector or to the kit included pressure gauge for stand-alone use
- Ideal for warranty and traceability purposes
- Using the HU35025, you can record and print the test report

NEW!

HU35025 Universal Pressure Tester Accessories

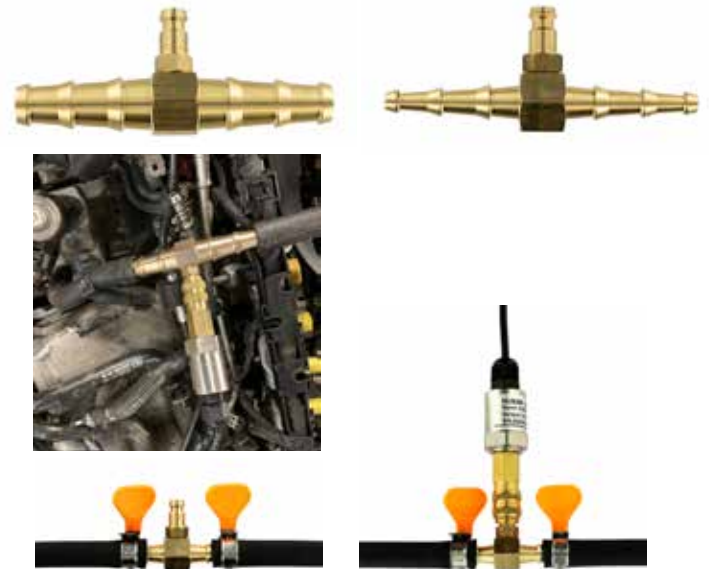

HU35041 Universal T Adaptors

Hubitools

New accessory to work with the HU35025 Universal Multifunctional Pressure Test Kit.

These “Barb” T-adaptors allow you to connect to any flexible low-pressure line on cars, trucks, tractors, etc., where there are no quick disconnects for the plastic tees included in the HU35025 Universal Multifunctional Pressure Test Kit.

- Two (2) piece kit includes adaptors fitting flexible lines from 6mm to 15mm I.D.
- Universal “T” adaptors connect to the HU35025 Universal Pressure Tester Sensors using the sensor quick coupler connector

HU35039 Diesel Glow Plug Compression Adaptor

New accessory to work with the HU35025 Universal Multifunctional Pressure Test Kit.

- Universal false glow plug adaptors are installed in place of the OEM glow plug to perform a diesel compression test
- Simply select the right thread adaptor and the right sealing cone to copy the OEM glow plug
- Universal adapts hook-up to the HU35025 Universal Pressure Tester using the sensor quick coupler connector

Kit includes:

- 4 x Screw-in adapter (M8x1, M9x1, M10x1 and M10x1,25)
- 4 x Sealing cones ($\varnothing 8.2/60^\circ$, $\varnothing 8.2/90^\circ$, $\varnothing 6.8/90^\circ$, English $\varnothing 6.8/120^\circ$)

This kit replaces dozens of compression glow plug adaptors.
