Acapulco 3 Piece Chat Set - Candy Apple Red/Black HL-ACA-3CS-CAB

Product Images

Description

The Acapulco Collection by Harmonia Living blends mid-century design with modern funk to create a new standard of comfort and style. The collection is inspired by woven furniture that was popular in Central America in the 1950s and '60s, featuring a breathable and supportive design. This makes the Acapulco Collection ideal for unwinding, even in the warmest climates. The collection is constructed with powder-coated steel, making it incredibly durable and weather-resistant. The black frame is wrapped in a supportive Candy Apple Red Polyethylene cord, creating the hammock-like netting that is the hallmark of the collection. The 3 Piece Acapulco Chat Set includes 2 Lounge Chairs and a Side Table for one-on-one outdoor relaxation and conversation. The chair is designed to center your weight between its triangular legs, providing a stable and comfortable resting position that seems to defy the outrageous geometry of the collection. The side table features a matching radial design and comes with a glass top, perfect for holding your favorite summer beverage. For added functionality, the glass top can be removed and replaced with the included cushion to become an equally stylish ottoman! If you are looking for patio seating that is both fun and sensible, then the Acapulco Chat Set is for you!
