## The Best Portable Air Conditioners to Keep Any Small Space Cool

By Selina Tedesco, Good Housekeeping Institute  
June 15, 2018

*Summer's heat does not hold back, and those of us without central air conditioning have our work cut out for us to prepare. For the rooms where a window AC unit just doesn't fit (or isn't allowed by landlords), a portable air conditioning unit is a game-changer.*

*These top picks from the **Good Housekeeping Institute** are quieter and won't hog as much space as others on the market — and more importantly, they'll keep things cool as a cucumber.*

### Rated #1

#### **Overall Pick: Whynter ARC-14S Eco-friendly 14000 BTU Dual Hose Portable Air Conditioner**

This A/C has a dual hose so it can cool down a room faster than other portable units. It also works as a fan (with 3 speeds), an air conditioner, and a dehumidifier.

Cooling Area: 500 square feet  
Unit Dimensions: 16 x 19 x 35.5 inches  
Weight: 80 pounds

### Rated #5

#### **Whynter ARC-14SH Eco-friendly 14000 BTU Dual Hose Portable Air Conditioner with Heater**

Almost identical in function to our overall pick, this unit also functions as a heater so you can use it year-round. Manufacturers say it cools as low as 61°F and heats up to 77°F, so you'll be comfortable no matter the weather.

Cooling Area: 500 square feet  
Unit Dimensions: 16 x 19 x 35.5 inches  
Weight: 80 pounds
