Handling of the Waste Electrical

The waste Electrical

This marking shown on the product or its literature indicates that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household user should contact either the retailer where they purchased this product or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

Service Regulations

After service

(A) Service system

1. Consultancies: Please read this user manual carefully before using this product. For any problem during using it, you can either contact the local retailer or call our customer service
2. Exchange service: within exchange time limit, for any indeliberate error during proper use, making sure the product as well as its accessories and package are all not damaged (if the appearance is damaged, it can only be repaired) you can either have it exchanged for a new one or repaired after the error is tested and examined;
3. Warranty service: within the warranty time limit, for any indeliberate error that occurs during proper use, warranty service is free for no charge (the speaker has warranty service for free within one year; for any deliberate damage, the warranty service should be paid).
4. Charged warranty service: within three years counting from one year after the date the product was purchased, any error repair will be charged; and user should pay the repair components, freight and labor cost.

Service Regulations
