Love at First Touch

CVF featured our CBD Massage Oil at the Premier Columbus Beauty Show in October. Interestingly, a large portion of the artists we spoke to were licensed massage therapists, many of which sampled our new oil and loved it at first touch! Common delights that were doted over were its light scent, consistency, long-lasting effects, and of course the perks that naturally accompany a premium CBD product!

Fun for February

The presence of flowers has been linked to improved recall of past memories and increased ability to form new memories!

Massages have been linked to increased levels of white blood cells, which play a key role in the body's immune system.

CBD works with the Endocannabinoid System, which regulates mood, pain, and sleep offering natural potentials as opposed to traditional pharmaceuticals.

Fresh flowers, massages, and CBD all have potential benefits for physical and mental health and contribute to a holistic approach to well-being!

Testimonial from Barker Shop owner/groomer:
Last week a dog had to be sent home unfinished as continuing to groom this pet would have been very unsafe. He was trying to bite the groomer and scissors. We offer CBD pet Tincture in our Relaxation Package for owners (after consulting their veterinarian) to administer. The pet parent decided to give it a try with a re-groom to see if it would make a difference, in hopes that the groom could be completed without sedatives or full sedation from a veterinarian. The re-groom was completed with amazing success! "He was like a totally different dog!" This month we are offering this package for FREE with all purchases over \$65(package value \$15-\$20).
