Favorable Fortune Telling

As discussed in previous CVF published material, the Entourage Effect is an enhanced experience when consuming products that contain CBD and THC. When there are more cannabinoids working together, there are known to be greater effects from the typical benefits that accompany CBD. This is why knowing what your CBD products are manufactured with is so important. For instance, CBD products are either produced with Full-Spectrum Oil (CBD & THC & terpenes), Broad-Spectrum Oil (CBD & terpenes), or Isolate (pure CBD).

If any amount of THC still feels frightening and leads your mind to a web of wonder, you'll for sure be in favor of what is foreseen in the near future in the CVF laboratory, muaaa haaa haa haa! **THC FREE Gummies!** Our current CVF Gummies are made with Full-Spectrum Oil, meaning that there are small traces of THC, providing the enhanced Entourage Effect, which makes these one of our best-selling products on the shelf!

REMEMBER!

Other CVF THC-Free Options:

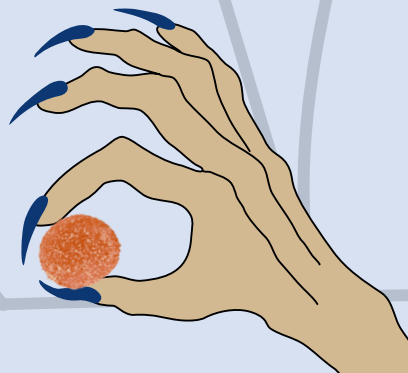

- Nano Blend Tincture
- 3000 MG Tincture

However, if you're at risk for a drug test within your career, we might scare you away from these and lead you to our next best creation this fall - these **NEW THC-Free** combos! They will mock the day and night options and be featured in our customer's favorite flavor of bewitching Berry. Look for this not-so-scary selection very soon!

Coming Soon!

RELAX! They're THC Free!

Note: Our Full-Spec Products are always under .03% THC by law, and are not psychoactive!

A New Flight

That Seems Just Right

Expertise in Hair Guides a New Affair

Our CEO of Cedar Valley Farms, Kristin Anthony, brings more than experience, and knowledge on running a business to the "field"; she also packs 20 plus years of expertise and artistry behind the stylist's chair in her bag of tricks. Making these two areas magically mesh together is only something a passionate, driven woman of brilliance would be able to achieve. Kristin's passion for helping people find happiness, wellness, and beauty within themselves has led to salons being a perfect target for selling Cedar Valley Farms' wellness products. This has certainly proven to our avail as CVF is currently in five local salons with a very promising prominent addition on board in the near future.

This magical mixture of talent has also led CVF to take flight to a new venture - the Premier Columbus Beauty Show!

Premiere Columbus is a trade show for the professional beauty industry where licensed professionals connect with manufacturers and distributors of hair, nail, and skincare products.

We have landed a spot as an exhibitor to feature CVF wellness products, our Emera CBD hair care line, and debut our NEW CBD Moisturizing Lotion and CBD Massage Oil!
