A Time for Thanks

Thanksgiving is a time to not only reap what was sown, but to take time to sincerely appreciate all that is before us. As hemp's skepticism fades and confidence in CVF builds, at the top of our list of thanks is our customers. Over the past year, we have greatly increased our customer base and have heard many more stories about how Cedar Valley Farms products have improved the lives of people and pets. Thank you to our customers who have trusted us and continue to trust their natural wellness with Cedar Valley Farms. This thanks extends to our wholesale family members as well. Businesses selling CVF products are spreading across Ohio, and for that we couldn't be more grateful. CVF customers and partners are our top ingredients for growth.

Seeing the Big Picture

Seeing is
Believing
with CVF's
Screen Solutions

Providing superior products and experiences that aren't options with other companies is something that sets Cedar Valley Farms apart. As mentioned above, one thing that CVF truly values is our customers, which includes our wholesale members.

As a business owner, deciding to take on a new product line can be a tough decision that often leads to holdbacks and delays while weighing out whether or not the new product line will sell. Cedar Valley just made that decision much easier for any business owner considering selling CVF products by letting them see the big picture, literally. This big picture comes through CVF customized screen solutions to suit individual needs.

What Does
it
Look Like?

Choose between a large screen placed on the wall, or a mobile, slim and sleek screen display that sits in a vertical stand, which can be placed anywhere.

What
Does
it Do?

These screens are managed by CVF and include advertising of your brand and company product in addition to testimonies and product detail on the CVF products sold at your business.

Why Do
I
Want it?

Our screens have been proven to generate immediate sales, educate clients without saying a word, spark interest in all products sold in your business, take pressure off your staff to sell, and increase revenue with zero effort. Individualized packages are available for everyone!
