Recognized – Industrial Luminaires

"Apollo 3" by Advanced Energy Ideas

Description

The Apollo Series LED luminaires refractive acrylic domes offer a more traditional look and distribution while providing glare reduction. The series features many configurations to enable appropriately angled perimeter area, task and production floor illumination.

Judging comments

The judges reacted positively to the aesthetics, color qualities and glare control of this high bay luminaire, noting the "remarkably good glare control delivered". The judges did express some concerns about serviceability, however.

Luminaire Testing

Model Number: APO3-300W-50K-UNI

Light Output: 32910 lumens

Input Power: 300 watts

Power Factor: .999

CCT: 5190K

CRI: 76.1

Testing Lab: Lighting Sciences Inc.

Testing Number: 32663; 32664
