PrintPerfect ET8550 Initial Setup

Document: PrintPerfect Driver Initial Setup for Epson ET 8550 Printer
Time Required: <10 minutes

This document will guide you through the software initial setup of the Reveal PrintPerfect driver for the Epson ET 8550.

Getting Started:

1. Open the Reveal PrintPerfect software from your Windows start menu.

2. A first time setup will begin. In **Set Display Units**, choose the units you prefer. In **Set Number of Decimal Places**, select **2** and click **OK**.

3. Next click **Enter Activation Code.** Fill in the registration information and click **Register My Product**.

4. If prompted to restart your PrintPerfect software, please do so. This will complete the registration process.

5. On the **Create Queue Wizard** screen, click **Next**.

6. The next screen prompts you to turn on the ET 8550 printer and connect the printer to the computer via usb cable. Click **Next**.
   Note- You can connect via your local network as well. We will cover this later.

7. On the **Printer Defaults** screen, click **Install Printer**.
   Select **PrintPerfect ET 8550** and click **OK**.

8. On the **Install Printer** screen, select **Search for new printer packages from Cloud Server**. Click **Next**.

9. The next screen will confirm the downloads are complete. Click **Next**.

10. On the **Printer Port Setup** screen, click the down arrow and select your usb port. Click **Next**.
    Note- If you have already connected your printer to your local wireless network, select **TCP/IP** and find/select the ip address of your printer. You must know how to connect your printer to your wireless network to perform the TCP/IP setup.

11. Click **Finish**.
    Note- If you receive a Windows Security window asking for permissions, click **Allow**.
