

This document covers the steps to remove the white background from an image using the Burner Background webpage on Bonanza. Once you register on the website, you can save your converted image as a JPG or PNG file.

Procedure:

1. Visit <https://burner.bonanza.com/>. Register for free on the website to activate the SAVE FILE function.
2. Import an image by dragging your image to the designated **Drag and Drop area**, or click **CHOOSE A PHOTO**.

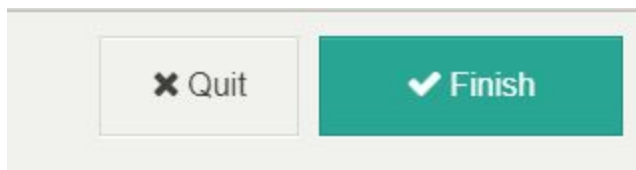

- Once the image is uploaded, you will be presented with images with different results.

- If satisfied with the results, click the **SELECT** button. This will present with you the option to download your converted image. Be sure to save the image as a **PNG** file in order to retain the transparent background. If your image needs slight modifications, choose the **TOUCH UP** option, located beside the **SELECT** button.
- The **Red Minus** tool will allow you to remove parts of the image that remain after utilizing the automatic background removal tool. The **Green Plus** tool will allow you to recover parts of your image that were omitted using the automatic background removal tool. *The image located on the right side is a preview of the modified file.*

- When the desired results are obtained, click **FINISH**, located at the the bottom right of the browser window.

7. Click **LOGIN TO DOWNLOAD**. Click on the **DOWNLOAD** button. Choose the **PNG** format to retain the transparent background.
