Praié

Vermentino grape variety

Colla Micheri, Andora (SV) vineyard

Vermentino 'Don Lisander' is produced in our vineyard overlooking the sea, planted in 1970.

The rows are laid out on 20 km of dry-stone walls.

We limit yield to 40 q per hectare to ensure a high quality grape that gives the wine a typical elegant savoury flavour with notes of Mediterranean maquis, thanks to the micro-climate.

#### COLOUR

Bright and intense pale straw yellow.

#### BOUQUET

Rind apple, vegetable, salty, slight eucalyptus.

#### PALATE

Warm and savoury.

#### SOIL TYPE

Terraced on dry stone walls, limestone, medium mixture.

#### EXPOSITION
