RING SIZE GUIDE

This guide is printed in US Letter size-8.5”X11” and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below or placing the correct coin in one of the labeled ring sizes. If the card or coin lines up, you are all set.

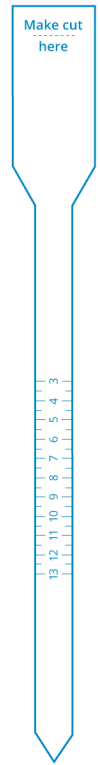

Here are two options for determining your ring size.

● Use the Ruler Cutout

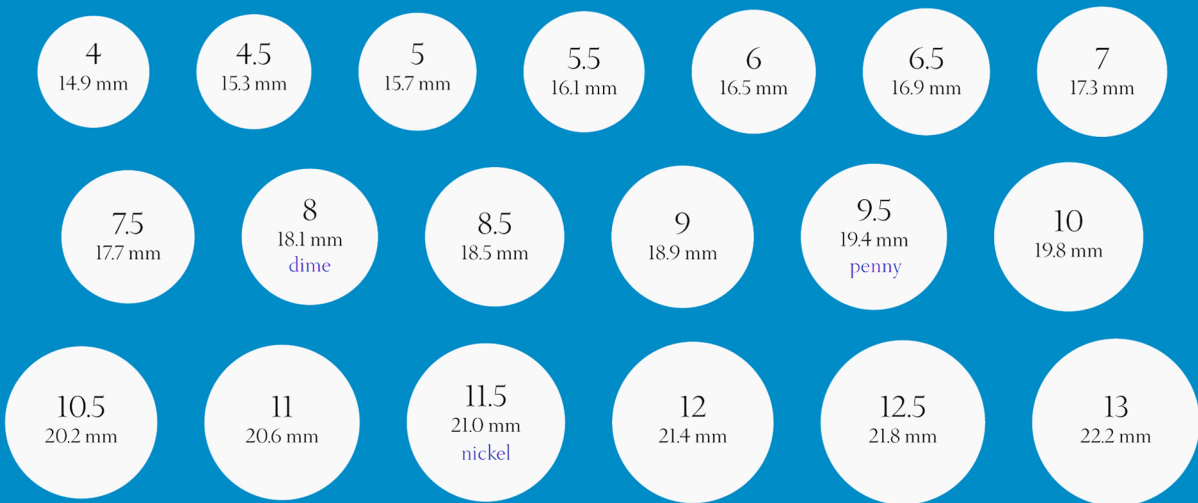

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily.

Sizing availability is specific to each product, though some larger rings can be sized down. Ring size may also vary slightly depending on style of the ring.

● Measure by matching your ring

To determine your ring size using an existing ring, match the inside of your ring with one of the circles below. For an ideal fit ensure that you do not see any blue space and only the insides of the white circle. If your ideal fit falls between two sizes, we recommend choosing the larger size.

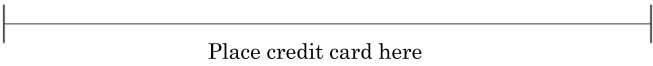

Measure warm hands for an accurate size when using the linear guide. The best time is normally early evening.

BRACELET SIZE GUIDE

Determine your correct bracelet, bangle and cuff size, measuring to your wrist.
