- Paper towel
- If painting the model, colored spray primer, desired acrylic paint colors, brushes, and clear flat or matte spray lacquer for under and over coating finish.

Cautions:

- **This model contains small parts, keep away from small children.**
- **All our models are designed for miniature enthusiasts and collectors, they are not toys.**
- **For ages 14+**
- **MDF is a pressed wood material; do not submerge in water as this will cause damage to the product.**
- **Avoid excessive moist environments.**

Cleaning & Storage:

- Occasionally wipe with a slightly dampened cloth
- Store your building in a cool, dry location.

Pre-assembly:

Organize the model pieces in group and familiarize yourself with their purpose. Here is a visual aid of all the parts included in your kit to help:

***** If you are painting your model**, we recommend that you first apply a clear flat/matte clear lacquer, then follow by a spray primer (color of your choice) to all your pieces prior to assembly. This helps seal the porous surface of the MDF and will provide a consistent surface to apply your paints.

Tips:

- Wipe off excessive glue
- If you can put a clamp on it or a rubber band to hold parts in place while glue bonds, do it.
- **Do a walkthrough of the assembly without gluing to get familiar with the way the connections and pieces fit.**

The following instructions show pictures of the Medium Stone Corner Set. The Low Stone Wall Set uses the same steps.

Instructions: Corners (x4)

Step 1: Start assembling the corner by applying glue to the unfinished side of piece #1. Next, attach #1 to #2 (glued side to unfinished side) together. Clamp if necessary. Repeat using pieces #3 and #4.

Step 2: Apply glue to the bottom of the corner walls and the corner joints. Attach the corner walls to the base plate (#5) and finish by attaching the corner topper (#6) to the top of the walls.

Repeat these steps three times to complete all four corner pieces.
