Complete benefits for all pets

WHAT IS IT?

A clean, unscented, unflavored tincture made to help our furry friends get the same benefits from BioCx that we enjoy.

WHAT DOES IT DO?

Your pet has an endocannabinoid system just like you do! Preliminary research shows that your pet may get a better quality of life with the benefits of both CBD and curcumin.

KEY INGREDIENTS	FUNCTION
Curcumin	Some research shows that curcumin can benefit animals in the same ways it benefits us by helping with problems related to inflammation, liver disease, and cardiac function.
CBD	Research is still ongoing, but some studies have linked CBD to lower anxiety, pain relief, and even a reduction of seizures in animals.
BioCx	Our proprietary complex that delivers molecules with low bioavailability to the body in a way that enhances absorption.
