

We have created this printable ring size guide to help find your ring size.

BEFORE MEASURING – CONFIRM PRINTED PAPER SIZE

Before printing this document, ensure that page sizing is set to **actual size** on your print dialog box.

To ensure the page has printed the correct size, measure a credit card against the bar below, if it matches you are good to go!

We have two methods for finding your ring size

Measuring Your Finger *or* Using an Existing Ring

Method 1: Measure Your Finger

1

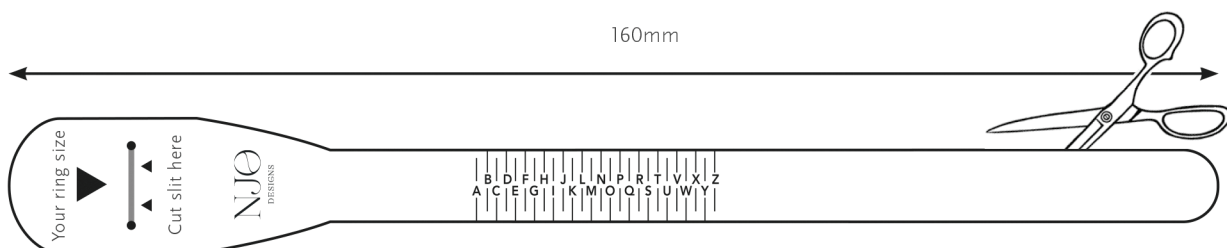

Cut out ring sizer and cut a slit on the vertical line.

2

Wrap the sizer around your finger and pull the end through the slot until the sizer wraps comfortable around the base of your finger. Don't pull the end too tightly.

3

Now look at the letter the arrow is pointing to. That's your ring size! If your knuckle is bigger than the base of the finger, measure both and choose a size in between.

Method 2: Measure an Existing Ring

1

Select a ring that properly fits the intended finger.

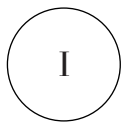

2

Place the ring over the circles below. Match the inside edge of the ring to the closest circle.

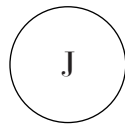

3

If the ring falls between two sizes, order the larger size.

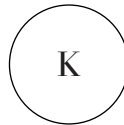

For greatest accuracy use a ring with a similar band width and style to that you want to buy.
