

Establish Your Campsite Starting/Scoring Positions

The intent of this document is to show a close-up view of the mission object's "Starting" and "Scoring" positions in support of the Ua Hala Ka Hala Island Adventure Challenge's videos and documents, and the General Rules.

Starting Position

At the Start of the Match, the Campfire will be found in the Safe Zone.
You will need to bring your own minifig.

Scoring

The robot must be programmed to reposition the Campfire to the Campsite. A minifig must also be at the Campsite to receive a score for this mission.

Both the Campfire and a minifig are required to be in the Campsite to score.

Partially or Completely in the Campsite will score.

Touching or Not Touching the mat will score.

A minifig may be on the Campfire, or delivered separately.

The referee will look "down, from above" to confirm that both the Campfire and a minifig are "in" or "out" of the Campsite.

25 Points

If either the Campfire or the minifig are Out of the Campsite, No Score.

0 Points
