

BIEN CUIT

CORPORATE GIFT GUIDE

*BREAD
WELL
DONE*

Flour, water, salt, and leavening are all you need to make a food that has nourished people for thousands of years.

At Bien Cuit, our small-batch approach to baking hasn't changed much from the way our ancestors did things a hundred years ago. We mix everything by hand and use a process of slow fermentation to leaven our loaves. This takes time and patience, but the extra effort pays off in bread that is truly "bien cuit", a French expression that means "well done" referring to the crackly, caramelized crust of a perfect sourdough loaf.
