Dear Sir

RE : CLEANING AND RECOATING TILES - STIRLING RESIDENCE

Having Tile Brite clean, repair, and repaint the tiles at my home in Stirling some 4 years ago, I thought it appropriate to write to you and advise you that after this time, the appearance and quality of work looks as good now as it did a few days after completion.

A very important consideration in choosing A.S.T.E.C. to repaint the roof was the durability and excellent insulation properties of the ceramic base to the paint. In the hot weather we have recently experienced, this has proved to be highly beneficial in keeping room temperatures as low as possible, an amazing difference particularly as our bedrooms are located upstairs and previously used to heat up quickly. This was particularly noticeable before Tile Brite undertook their roof treatment programme.

I would like again to thank you and your staff for some excellent work.

Many thanks.

Yours faithfully

A handwritten signature in dark ink, appearing to read 'Gerry Osborne', with a long horizontal flourish extending to the right.
