Tile Brite,
24 Pinn Street,
St. MARYS...S.A...5042.

Attention Mr. Gary Allsopp.

Dear Gary,

Your Astec 100 roof treatment system has changed the dull and grubby appearance of the asbestos shingles covering our house to one of shining cleanliness. We think it is now the best looking roof in the neighbourhood.

Although we have not had a heat wave since the treatment was completed, the outside temperature has been high enough on some days to convince us that we will reap the benefit of lower inside temperatures during the summer months.

Please pass on our thanks to all of the workmen involved. They showed a helpful and conscientious attitude to the job which we both appreciated very much.

We extend our best wishes to you and your company in the years to come.

Yours sincerely,

Reg & Gwen Moxon
