

INSTRUCTIONS FOR INSTALLING ECHO PB-610 ADAPTOR BRACKET

Parts supplied:

- Qty. 1 ECHO PB-610 adaptor bracket
- Qty. 4 10-32 x 1" Socket Head Cap Screw
- Qty. 4 #10 Split Ring Lock Washer
- Qty. 4 #10 Flat Washer

Tools required: 5/32 Allen Wrench

1. Remove the protective screen from the blower.

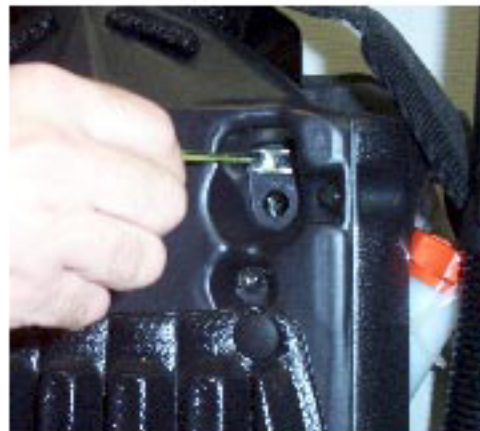

2. Remove the 4 socket head cap screws and the oval spacers provided with your blower. Be sure to save the 2 spacers for later use.

3. Slide the adaptor bracket between the bracket on the spring and the plastic back of the blower.

4. Be sure the extrusions on the spring bracket fit into the holes of the adaptor bracket.

5. Secure the adaptor bracket using the 10-32 x 1" socket head cap screws, split ring lock washers, and finally, the flat washers provided with your adaptor bracket. You will also need to re-install the oval spacers between the bolt and the plastic backing.

6. Replace the protective screen removed in Step #1. Optional: The screen can be cut to fit the adaptor bracket if desired.
