They say "If you want to keep something from somebody put it in a book."
The Co-op Project believes in sharing information so we decided to ask
some people what were their favorite books and why?
We created this curated book club list to share with the community.

01 PICK A BOOK

There are many books to choose from. We have various titles and different genres of books.

02 PICK A TIME TO READ

Find some quiet time to read and engulf yourself into the book.

03 LEARN AND APPLY

Some of these books will teach you different things or tell you someone's story. Take the time to learn from what you read and apply it to your life in some way.

04 FIND A NEW BOOK

Knowledge is infinite. Find another book to read. Share what you learned with somebody. The more you know the more you grow.

WE HOPE YOU ENJOY OUR BOOK CLUB

This book was great, it taught me about financial responsibility. It made me be more aware of how I spend my money and be conscious of saving for my future.

Thomas M.

This book teaches you the mentality you need to have in order to be successful, not only in your career and/or business but life itself.

I liked the book because it allowed me to reflect on my life.

It allowed to see things clearer and it's okay to be present, live in the moment, be alone, and whatever is going on in your life this too shall pass.

Kenya C.

The Value in the Valley - tells you how you will keep repeating the same scenarios until you learn your lesson. Different people will continue to come in your life but will present the same situations to see if u finally do something different. The universe will keep testing you.

Tara B.

It teaches us how to deal with life's uncertainties and turn them in to positives. There will always be new things to discover. Don't stand in front of where your cheese used to be and be upset it is no longer there. Go search for fresh cheese.

Tamika H.

This book was easy to understand and apply. It taught me the fundamentals of wealth and building passive income.

Hustle Harder, Hustle Smarter. Self-help book. Identify your fears, don't be comfortable in your fears, and evolve....constantly. It is relatable in that he didn't start on 3rd base and achieved great success by being an astute observer and taking action. It's really good for self reflection and recognizing the elements holding myself back.

Omar L.

This book help me realize how to turn an idea into life changing experience. It also teaches you to trust your instincts and seize opportunities when they come.

Gary L.

This book has been an absolute asset to me in my healing journey. I used to struggle with holding onto the memories of past traumas and not being able to forgive myself for mistakes that I have made in my younger years. While continuously reliving these events I developed a pattern of negative self talk. I also used to spend countless hours worrying about my future and the future of my family. This has caused me to battle with anxiety. This book gives you actionable strategies to start living every minute as it occurs and focus my energy on the only thing I truly have control over; which is the Present. I highly recommend this book to anyone who struggles with depression and/or anxiety. It's definitely a must read.

It provided a lot of insight as to why some organizations struggle with growth and retention. Also the additional money that is spent on external resources because they do not trust the capabilities of their own employees. This also impacts compensating your internal employees. It is prevalent in county government particularly with all the layers of approval to conduct business.

The book that changed my life is the Bible. As I have gotten older and more comfortable with my spiritual journey I realize that when I was young and doing things my way. That a lot of the things I went through could have been different if I took the time to really read and study what was always right in front of me .

The Bible has taught me that any and everything I need is all laid out for me in those 66 books . Some of my favorite verses are

Deuteronomy chapter 28 verse 6 and 13

Isaiah chapter 56 and verse 17

Jeremiah chapter 29 verse 11 chapter 31 verse 3

This book has changed me for the better. It has made me a better Muslim as well as a better Man & person all across the boards. It has given me more of the information & the knowledge that I need to navigate through this Dunya, which means LIFE. As an added bonus it's written in both the Prophets language which is Arabic but it's translated in English. STAYMIGHTY

Hatchet really affected my life when I read it for the first time. Its exhibition of human spirit and perseverance blew me away, and I found myself unable to put down the book. Pretty thrilling and inspiring.

Nahki L

This book helped me spiritually & gave me a new perspective on God.

He's the only documented American that took and completed the training for every military branch, Navy Seals, Marines, Army Ranger, Airforce etc. He's like this ultramarathoner now and held the Guinness record at one point from most pull ups. Your mind has to be in a certain place to be so locked in, laser focused on completing your goals and what you set out to do. Let's not even touch on the discipline.

Alicia L.

It was about vision, imagination, commitment, building your brand and what success looks like from the ground up.

The book use real historic events to show data on human behaviors that proves patterns and outcome. “Never Outshine the Master” was a very impactful law.

This book will show you how to maintain your confidence in places you may have second guessed yourself.

Teaches you good Leadership values and traits.

Stephen M.

The message to the Blackman changed my life in so many ways it's hard to explain. Because it basically told me how to live as a Blackman in this world and my responsibilities amongst other things.

Isaac T.

I read it in my 20's and it really confirmed some of the strife that exists between men and women that creates more division when we try to create unions through marriage or long term live in situations and ultimately the disintegration of those unions. In the book it highlights the misunderstood, blurred roles of man and women, how social groups such a friends or family and society at large vary in degrees in attempts to undermined successful unions between man and women for various reasons, and how women have to take a step back in reflecting on past and present relationships with men and taking some responsibility in past choices of mates, and suggestions on how to make better choices in the future.

The Celestine Prophecy is one of my favorite books. It is so insightful touching on our roles and impact in the universe. It hits you with insights that awaken a knowing in yourself and your life.

I liked the way it teaches one to notice coincidences and how to interpret them, and the way it covers all the techniques others use to control people.

Trudy C.

This book has helped me redirect my thinking to bring more positivity into my life.

When we open our eyes wider to the power of words, our subconscious becomes our conscience, and our conscience becomes our superconscious.

This Metaphysical book was written in the 1920's and is still relevant today.
