

TREKKER
LUXURY DECKING

DECKBOOK
Autumn/Winter 2022

ENJOY YOUR GARDEN ALL YEAR ROUND

I hope you all had a wonderful summer, even if it was a little on the warm side! No doubt many of you are quite happy with a few months of some cooler weather.

The autumn and winter months however won't mean that you need to say farewell to your precious outdoor space. There are ways to prepare your garden in such way that you can enjoy it all year round!

Sustainable decking boards by Trekker are the perfect choice for your outdoor area. When the rainy weather arrives, the decking can help you keep a clean and tidy look for your garden. Trekker products are made from materials that will last for a long time and are manufactured with very little impact on our environment. More people today are into sustainable product solutions and at Trekker we are proud to be able to offer you just those.

In this brochure you will discover some of our latest new products on pages 16-17, Find out the fantastic product qualities of our Endura 3D decking product. On pages 6-9 you will find our latest case study featuring Leeds-based Garden Studio project.

Hope you enjoy this Deckbook and as always we'd be happy to help you, so please get in touch!

NICK WHILEY
International Project Director

WHY TREKKER COMPOSITE DECKING?

- Trekker decking is easy to install and can be worked just like wood. Full installation instructions are included in every product delivery, and they are also available online for your convenience.
- Trekker comes with a 5-year warranty for commercial and a 10-year warranty for residential applications.
- Trekker products are made in our factory in Europe with 1000's of M² of UK stock for fast delivery nationwide.
- Composite decking will not rot or warp and requires very little maintenance.
- You will not need to oil or seal composite decking, and there are no splinters unlike with wood.

PRODUCT: HO525 VULCANO GROOVED

- The product does not host the growth of algae and it is anti-slip even in wet conditions.
- Trekker products are environmentally friendly. They are FSC® (FSC-C009500) certified, made entirely from recycled hardwood fibres and virgin polymer, and are themselves fully recyclable.

The mark of
responsible forestry

GARDEN STUDIO

LEEDS

Product: HO944 Vulcan cladding, HO2298 & HO2295 Grey/silver trims

For this Yorkshire-based project, Trekker Global composite cladding was chosen for the exterior of a stunning outhouse for a family home in the heart of Leeds. The addition of this new flexible outdoor space has transformed the garden offering.

The HO944 Vulcan Cladding in Grey has provided a robust yet stylish exterior to the annexe, with the ability to withstand all weather conditions throughout the year whilst also remaining low maintenance. The silver trims of the HO2298 & HO2295 cladding offer a contemporary feel, working seamlessly with the existing modern house and garden furnishings.

The intricacy of the wood grain process as part of the composite design has created an immaculate finish to the overall building. The lightness of the composite cladding pairs well with the garden's colour palette yet still manages to showcase the precision and detail that Trekker Global provides.

PRODUCT: H0944 VULCAN CLADDING

CLADDING

Bringing you sustainable, high-quality composite cladding products in 3 stunning new colours providing 12 finishes to choose from! Complete your garden project in style with matching cladding, which will last for years to come.

ATHRACITE WOOD GRAIN**HO942**

TREKKER ALUMINIUM TRIMS

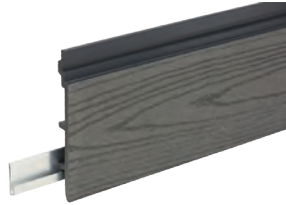

High quality trims are essential for the success of your cladding installation.

TREKKER profiles are supplied in precisely engineered aluminium making them very strong whilst simple to fix.

STARTER RAIL

Starter Rails are your first step for a neat and easy install. The first row of boards fits neatly into the Starter Rail profile providing a sound and straight foundation to build upwards from.

STARTER RAIL - ALUMINIUM

HO2299

35 x 8mm
3m lengths

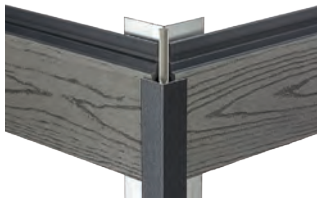

£16.95 per length

EXTERNAL TRIM

External Trim is a perfect finish for external corners of buildings, recesses and framework.

The generous Base Plate allows a stable fix into most materials and Top Cover hides expansion gaps on the ends of the cladding boards.

EXTERNAL TRIMS - ALUMINIUM

HO2293

Black external corner
3m lengths

HO2294

Brown external corner
3m lengths

HO2295

Grey external corner
3m lengths

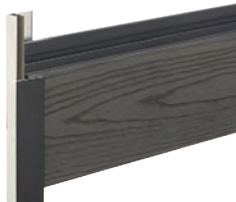

£58.95 per length

WINDOWS/STOP TRIM

Windows/stop trim is an elegant solution for window and door frames, internal corners and soffit junctions.

This versatile trim has a variety of uses, the Base Plate is easily fixed to most materials and the Top Cover hides board ends and expansion.

WINDOWS/STOP TRIM

HO2296

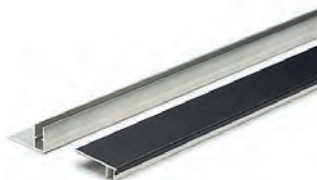

Black trim
25 x 30mm 3m lengths
(Trim for window surrounds)

HO2297

Brown trim
25 x 30mm 3m lengths

HO2298

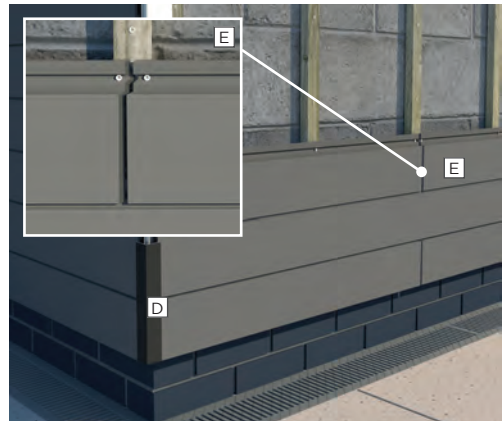

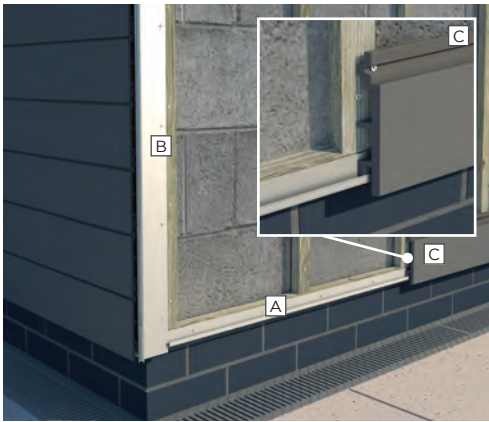

Grey trim
25 x 30mm 3m lengths

See pages 14-15 to see how these can be used.

£35.95 per length

TREKKER CLADDING EXPLAINED

TREKKER CLADDING SEQUENCE

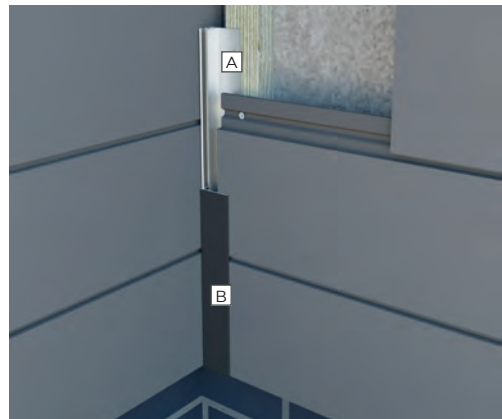

- A - Starter Rail
- B - Base Plate for External Corner
- C - TREKKER Cladding board, first row located in Starter Rail

- D - Top Cover for External Corner, neatly covers all expansion requirements
- E - Header joint over a batten with 6-8mm expansion gap (cut chamfered at 45deg minimises visual impact)

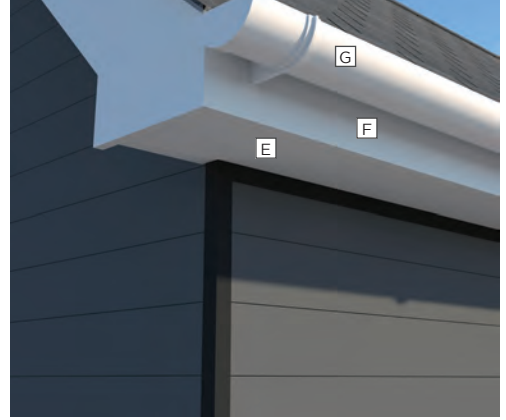

TREKKER DOOR REVEAL

- A - Base Plate for Window/Stop Trim
- B - Top Cover for Window/Stop Trim
- C - Base plate for External Corner
- D - Top Cover External Corner

TREKKER INTERNAL CORNER DETAIL

- A - Base Plate for Window/Stop Trim
- B - Top Cover for Window Stop Trim

TREKKER SOFFIT DETAIL

A - Base Plate for Window Stop Trim
B - Top Cover for Window Stop Trim
C - Base Plate for External Corner
D - Top Cover - External Corner

E - Soffit
F - Fascia
G - Guttering

NEW PRODUCT FROM TREKKER: ENDURA 3D

Endura 3D is the latest new product by Trekker Global providing you with even more pronounced grain. This decking's exterior is manufactured with nanotech shield and reinforced with titanium, making it highly resistant to stains. Endura 3D comes in three colours with matching nosing. The product is splinter free, has high UV resistance and is easy to clean and maintain.

RUSTIC GREY

GO EXTRA LONG

Another great advantage with Endura² and Endura 3D products is that we can supply you with bespoke lengths for special projects, which means a stunning end result with fewer expansion gaps and wastage.

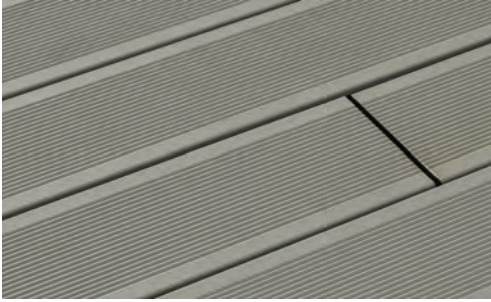

ENDURA²

A revolutionary new decking range, ENDURA², guarantees high resistance to stains and particularly fats, making it well suited for outdoor cooking areas or hospitality sector. ENDURA² is scratch resistant and features extreme tolerance to UV light. The product has the look and feel of wood but comes with a high longevity and is extremely durable.

The ENDURA² range is manufactured by using a new technology in which the core of the deck is manufactured in HDM (high density mineral WPC core), and the exterior is manufactured in a modified polymer (Nanotech Shield).

DIFFERENT TYPES OF **BASE FRAMES**

When installing your new Trekker Decking, these are the most common bases used.

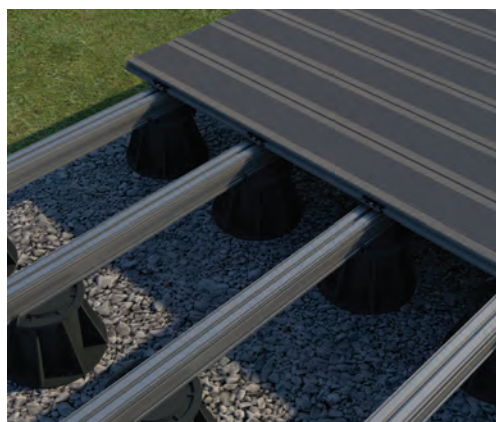

TIMBER SUB-FRAME

- Can be existing or new (existing needs to be in a sound condition)
- Joists must be set to 300mm centres.
- Tailor-made to suit the heights that work for your project.
- Elevated deck areas enhance the Al Fresco experience!
- Easy to customise and incorporate features like steps, planters and seating.

SOLID SUB-BASE

- Can be existing paving, concrete slab, concrete oversite or similar firm & stable material.
- Requires little preparation.
- Uses Low Profile Composite Batten HO550
- Battens are fixed to Sub-base.
- Very minimal height build-up.
- Works well with existing door/window thresholds.

RAISED DECK ON ADJUSTABLE PEDESTALS

- Fast and simple install method.
- Great for covering areas that have varying heights.
- No major construction work required.
- Pedestals are sited on firm level material i.e compacted aggregate or concrete pad.
- Can easily be lifted and re-located if required.

RAISED DECK FOR ROOF TERRACE, BALCONIES & VERANDAS

- Fast and simple install method.
- Easily caters for varying heights, roof drainage falls and door thresholds.
- Suitable for most roof finishes, GRP, Built-up Felt, Fibreglass Compound etc.
- Does not interfere with Waterproofing membranes.

TREKKER PRO TAPE

Manufactured in the UK, the Trekker Pro Tape protects the timber frame deck sub structure giving the composite deck board a completely waterproof and weather seal.

With a permanent adhesive bond for 50 years, and with a 25-year guarantee, this tape adds to the life of your deck frame. The product has been tested with all timber treatments. There are three sizes available to suit the UK sized timbers:

- **50mm wide Trekker Pro Tape** protects the top of the joists (timbers). This product will self-seal once a fastener has been driven through.
- **82mm wide Trekker Pro Tape** protects the underside of joists and is ideal for example for flat roof or balcony applications. It is also perfect for cut ends of all joist sizes.
- **100mm wide Trekker Pro Tape** has been designed to be applied on a double joist (2x50mm joists) or for deck posts resting on an area exposed to water.

The Trekker Pro Tape will enhance the life of every quality composite decking project.

TREKKER RETURNS POLICY

LEFTOVER GOODS

If you have any unused packs left over after fitting we can accept these back for credit, subject to the following conditions:

- Goods must be returned within 30 days from date of delivery (subject to our terms & conditions).
- A 20% restocking fee applies.
- You are responsible for returning the goods to us at our Carnforth Warehouse at your expense. Original delivery cost is non-refundable. Refunds will be issued within 14 days of receipt of material into our warehouse.
- Any returned goods must be unopened, no partial packs will be accepted.
- Goods must be in their original, "as new" condition and with original packaging. Any packs returned in a damaged condition or not packaged correctly cannot be credited.
- Handed products must have an equal quantity of Left and Right hands.
- Please note that unfortunately we cannot accept products which are specials or bespoke, made to your specifications or non-stock items especially brought in for your order.
- Any bespoke or non-stock items remaining at our warehouse which are part of a call-off order will be invoiced 14 days after the end of the contract.
- Before returning any goods, a return order number must be obtained from the Trekker Sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.

GOODS ARRIVED DAMAGED OR SHORT DELIVERED

- Any deliveries with damaged or missing goods should be accepted but must be signed for accordingly (i.e. "damaged" or "short delivered"). Phrases such as "unchecked" will not be accepted.
- Photographs should be taken of any damaged goods at the point of accepting deliveries and forwarded with your claim.
- All damaged or missing goods must be reported to the Trekker Sales Department within 4 days, and a replacement will be sent out to you at the earliest available delivery date.
- If you notice a problem after signing for delivery, then please contact us within 4 days to arrange a replacement. Photographic evidence of any damaged goods must be provided.
- You will not normally be expected to return the damaged packs to us. After your claim has been accepted by us please dispose of the items safely.
- We do advise you to check your packs upon delivery to avoid any unnecessary delays if there is a problem with the delivery.

FAULTY GOODS

- If the products arrive with a manufacturing fault, please contact our customer services telephone line: 01524 737000 or email us: info@trekkerglobal.com. If you call us we will try to sort out your complaint while you are on the phone. If this is not possible the advisor will agree a course of action with you, in line with our terms and conditions.

CHANGING YOUR MIND

- Subject to our terms and conditions, and in line with the Consumer Contracts Regulations 2013, you have 14 days after the day you (or someone you nominate) receives the order, (or where the order is split into several deliveries over different days, 14 days after the date of the last delivery) to notify us that you wish to cancel the order.
- Please note bespoke or special order products cannot be returned for credit.
- To cancel an order please contact our customer services telephone line: 01524 737000 or email us: info@trekkerglobal.com.
- You must return the products to us as soon as reasonably practicable and in any event within 30 days of delivery.
- The product must not have been removed from their packaging or in any way handled, modified, or installed (such that they are no longer in a saleable condition).
- If you cannot arrange carriage yourself, we can collect the complete order from the address to which they were delivered, on your behalf. Such collection will be at your cost, and at your risk.
