TREKKER

LUXURY DECKING & CLADDING

Hello and welcome to our latest Deckbook

The warmer weather has finally arrived as we enter the spring and summer season of the year! At Trekker we have been busy with new product plans, and with an increased demand for composite cladding we are introducing new colours and finishes to the range.

While our product range is versatile and offering something to everyone, please remember that we also offer full bespoke capabilities. If you have a specific colour or design in mind and you can't find it in this brochure, please get in touch and let's discuss how we can make it happen for you.

When it comes to outdoor projects more time you allow for the planning the better the results will be. Order your samples, look through our website for project inspiration, and speak with us to see how we can help.

We hope you enjoy this latest edition of Deckbook, and the new products and case studies. Hope to hear from you soon.

NICK WHILEY

Feel good with Trekker

Composite Decking & Cladding:
The look and feel of wood, but better.

Nature improved

Trekker composite boards & panels are created by mixing recycled wood fibres and polymers along with a small amount of bonding agents. This mix is heated, formed into board shaped lengths and then cooled.

The result is a beautiful, luxury material designed for life with nature at its core.

10 year residential warranty

Peace of mind with a 10 year warranty for residential application and 5 years for commercial.

Designed for life

Unlike solid timber, Trekker Composite boards will not rot or warp. Surfaces do not host the growth of algae and there are no splinters to worry about.

Choose from our **Endura** range (page 11) for high stain resistance, allowing you carefree outdoor entertaining.

Environmentally responsible

Trekker products are FSC® certified (FSC-C009500), made entirely from recycled wood & plastic material.

Our decking & cladding boards are fully recyclable.

Trekker is made by experts in our trusted European factory.

Anti-slip

Even in wet conditions

Low maintenance

No need to oil or seal

Huge range

Extensive choice of colours & finishes

Express yourself

Trekker Decking & Cladding is easy to install and can be worked just like wood, with full instructions included with every product.

With a range of **complementary accessories** (page 20), the only limit to your creativity is your imagination.

Go bespoke

Ask us about bespoke decking colour options! We can create colours outside of our standard range to your requirements.

INSPIRATIONAL SPACES

Frognal Lane

A glorious renovation in the heart of London

Product spotlight

Trekker Decking Woodgrain profile in Vulcan
See page 21

Woodgrain profile Vulcan

Project: Hampstead Residential
Location: London
Photography: Calvert Studios

The Frognal Lane project includes an interior and exterior transformation of the property resulting in a stunning new modern design, perfect for a couple looking for their first home.

Trekker Wood Grain Standard Decking in Vulcan was specified to provide a robust and stylish flooring solution for the roof terrace. The silvery tones of the boards perfectly complement the industrial black railings and contemporary outdoor furniture, providing a spacious terrace for entertaining.

Made from recycled FCS-certified wood and plastic, Trekker Global composite decking isn't only a sustainable design choice but it is extremely durable and easy to maintain – meaning it can be enjoyed all year round. Unlike wood, the composite boards do not need protecting from the extreme weather as they are anti-slip, anti-warp and UV resistant.

NEW

Endura 3D

24x150x3200mm
3 colours

Endura 3D is the latest new product by Trekker Global providing you with even more pronounced grain. This decking's exterior is manufactured with nanotech shield and reinforced with titanium, making it highly resistant to stains. Endura 3D comes in three colours with matching nosing. The product is splinter free, has high UV resistance and is easy to clean and maintain.

Available in longer lengths | More pronounced woodgrain effect | Safeguard profile

Endura²

24x150x3200mm
4 colours

A revolutionary new decking range, ENDURA², guarantees high resistance to stains and particularly fats, making it well suited for outdoor cooking areas and the hospitality sector. ENDURA² is scratch resistant and features extreme tolerance to UV light. The product has the look and feel of wood but comes with a high longevity and is extremely durable.

Grooved

Standard width

22x143x3200mm
2 colours

A standard width grooved board with a safeguard profile, available in two popular colours that nicely complement the natural elements of nature and the outdoors. Although already slip resistant, the grooves provide an extra element of grip.

Safeguard profile

Planks fit together with no-fall gap between each, using HO561 decking clips.

Grooved

Mixed width (Semi & Broad)

22x138x3200mm

22x183x3200mm

2 colours

A grooved board that comes in two very popular and modern shades of grey. Available in two width varieties of 138mm and 183mm giving you the option to mix and match both width and colour for that added wow factor. This product is finished with steel brushing that provides a long-lasting performance from each board.

Safeguard profile

Planks fit together with no-fall gap between each, using HO566 metal decking clips.

Woodgrain

Standard width

22x143x3200mm
3 colours

Contemporary Wood Grain look and feel but with the advantage of not rotting or warping like solid timber. Safeguard profile prevents small items from falling between the boards and pairs nicely with our Woodgrain composite cladding range.

Safeguard profile

Planks fit together with no-fall gap between each, using HO561 decking clips.

Guide To Base Frames

When installing your new Trekker Decking, these are the most common bases used.

Timber Sub-Frame

- Can be existing or new (existing needs to be in a sound condition)
- Joists must be set to 300mm centres.
- Tailor-made to suit the heights that work for your project.
- Elevated deck areas enhance the AL Fresco experience!
- Easy to customise and incorporate features like steps, planters and seating.

Solid Sub-Base

- Can be existing paving, concrete slab, concrete oversite or similar firm and stable material.
- Requires little preparation.
- Uses Low Profile Composite Batten HO550
- Battens are fixed to sub-base.
- Very minimal height build-up.
- Works well with existing door/window thresholds.

Raised Deck On Adjustable Pedestals

- Fast and simple install method.
- Great for covering areas that have varying heights.
- No major construction work required.
- Pedestals are sited on firm level material i.e compacted aggregate or concrete pad.
- Can easily be lifted and re-located if required.

Raised Deck For Roof Terrace, Balconies & Verandas

- Fast and simple install method.
- Easily caters for varying heights, roof drainage falls and door thresholds.
- Suitable for most roof finishes, GRP, built-up felt, fibreglass compound etc.
- Does not interfere with waterproofing membranes.

Trekker Pro Tape

3 widths

Manufactured in the UK, the Trekker Pro Tape protects the timber frame deck sub structure giving the composite deck board a completely waterproof and weather seal.

With a permanent adhesive bond for 50 years, and with a 25-year guarantee, this tape adds to the life of your deck frame. The product has been tested with all timber treatments.

50mm WIDE

HO615
Protects the top of the joists (timbers). This product will self-seal once a fastener has been driven through.

Width 50mm
Length 20 metres

£23.95 per roll

82mm WIDE

HO616
Protects the underside of joists and is ideal for example for flat roof or balcony applications. It is also perfect for cut ends of all joist sizes.

Width 82mm
Length 20 metres

£38.95 per roll

100mm WIDE

HO617
Designed to be applied on a double joist (2x50mm joists) or for deck posts resting on an area exposed to water.

Width 100mm
Length 20 metres

£46.95 per roll

Trekker Cladding woodgrain finish in Anthracite
See page 32

INSPIRATIONAL SPACES

Loughton House

A beautifully designed garden annex

Project: Loughton House
Garden Room
Location: Essex
Photography: Calvert Studios

Adding a new and contemporary design element to this family home, the Loughton House project is a beautifully designed garden annex, created to be a flexible space for working or entertaining.

Trekker Cladding in Wood Grain Anthracite was chosen as the finishing touch to the renovation, immediately sprucing up the home's outdoor space. The dark grey colouring of the boards perfectly complement the modern aesthetic of the slate roof tiles and Crittal French doors, resulting in an eye-catching structure that can be enjoyed day and night.

Providing sustainable, high-quality composite cladding, the Trekker Global collection is the perfect solution for any outdoor project, no matter the size or style, offering a selection of timeless finishes which are robust and hardwearing.

Trekker cladding explained

Cladding sequence

A - Starter Rail
B - Base Plate for External Corner
C - TREKKER Cladding board, first row located in Starter Rail

For illustration purposes only, find our full installation methods including expansion details at www.trekkerglobal.com

D - Top Cover for External Corner, neatly covers all expansion requirements
E - Header joint over a batten with 6-8mm expansion gap (cut chamfered at 45deg minimises visual impact)

Door reveal

A - Base Plate for Window/Stop Trim
B - Top Cover for Window/Stop Trim
C - Base plate for External Corner
D - Top Cover External Corner

Internal corner detail

A - Base Plate for Window/Stop Trim
B - Top Cover for Window Stop Trim

Soffit detail

A - Base Plate for Window Stop Trim
B - Top Cover for Window Stop Trim
C - Base Plate for External Corner
D - Top Cover - External Corner

E - Soffit
F - Fascia
G - Guttering

Cladding accessories

High quality trims are essential for the success of your cladding installation.

Starter rails

Starter Rails are your first step for a neat and easy install. The first row of boards fits neatly into the Starter Rail profile providing a sound and straight foundation to build upwards from.

ALUMINIUM STARTER RAIL

HO2299

Size 35x8mm
Length 3 metres

£16.95 per length

External trim

External Trim is a perfect finish for external corners of buildings, recesses and framework. The generous Base Plate allows a stable fix into most materials and Top Cover hides expansion gaps on the ends of the cladding boards.

ALUMINIUM EXTERNAL TRIM

HO2293

Black coloured

HO2294

Brown coloured

HO2295

Grey coloured

Size 35x8mm
Length 3 metres

£58.95 per length

Window/stop trim

Window/stop trim is an elegant solution for window and door frames, internal corners and soffit junctions.

This versatile trim has a variety of uses, the Base Plate is easily fixed to most materials and the Top Cover hides board ends and expansion.

ALUMINIUM WINDOW/STOP TRIM

HO2296

Black coloured trim for window surrounds

HO2297

Brown coloured

HO2298

Grey coloured

Size 35x8mm
Length 3 metres

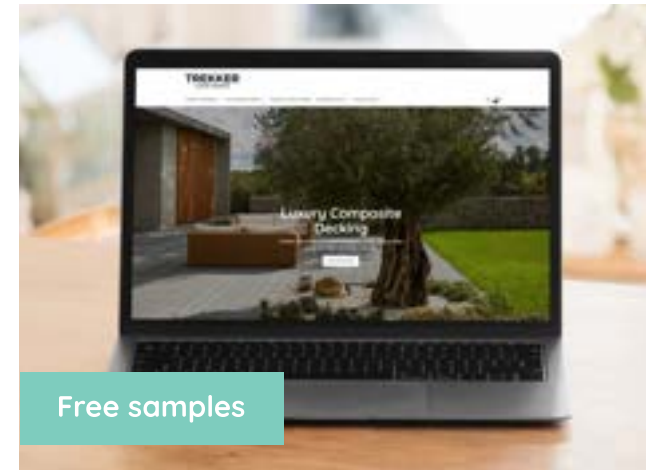

£35.95 per length

Returns Policy

LEFTOVER GOODS

If you have any unused packs left over after fitting we can accept these back for credit, subject to the following conditions:

- Goods must be returned within 30 days from date of delivery (subject to our terms & conditions).
- A 20% restocking fee applies.
- You are responsible for returning the goods to us at our Guildford Warehouse at your expense. Original delivery cost is non-refundable. Refunds will be issued within 14 days of receipt of material into our warehouse.
- Any returned goods must be unopened, no partial packs will be accepted.
- Goods must be in their original, "as new" condition and with original packaging. Any packs returned in a damaged condition or not packaged correctly cannot be credited.
- Handed products must have an equal quantity of Left and Right hands.
- Please note that unfortunately we cannot accept products which are specials or bespoke, made to your specifications or non-stock items especially brought in for your order.
- Any bespoke or non-stock items remaining at our warehouse which are part of a call-off order will be invoiced 14 days after the end of the contract.
- Before returning any goods, a return order number must be obtained from the Trekker Sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.

GOODS ARRIVED DAMAGED OR SHORT DELIVERED

- Any deliveries with damaged or missing goods should be accepted but must be signed for accordingly (i.e. "damaged" or "short delivered"). Phrases such as "unchecked" will not be accepted.
- Photographs should be taken of any damaged goods at the point of accepting deliveries and forwarded with your claim.
- All damaged or missing goods must be reported to the Trekker Sales Department within 4 days, and a replacement will be sent out to you at the earliest available delivery date.
- If you notice a problem after signing for delivery, then please contact us within 4 days to arrange a replacement. Photographic evidence of any damaged goods must be provided.
- You will not normally be expected to return the damaged packs to us. After your claim has been accepted by us please dispose of the items safely.
- We do advise you to check your packs upon delivery to avoid any unnecessary delays if there is a problem with the delivery.

FAULTY GOODS

- If the products arrive with a manufacturing fault, please contact our customer services telephone line: 01483 310800 or email us: info@trekkerglobal.com. If you call us we will try to sort out your complaint while you are on the phone. If this is not possible the advisor will agree a course of action with you, in line with our terms and conditions.

CHANGING YOUR MIND

- Subject to our terms and conditions, and in line with the Consumer Contracts Regulations 2013, you have 14 days after the day you (or someone you nominate) receives the order, (or where the order is split into several deliveries over different days, 14 days after the date of the last delivery) to notify us that you wish to cancel the order.
- Please note bespoke or special order products cannot be returned for credit.
- To cancel an order please contact our customer services telephone line: 01483 310800 or email us: info@trekkerglobal.com.
- You must return the products to us as soon as reasonably practicable and in any event within 30 days of delivery.
- The product must not have been removed from their packaging or in any way handled, modified, or installed (such that they are no longer in a saleable condition).
- If you cannot arrange carriage yourself, we can collect the complete order from the address to which they were delivered, on your behalf. Such collection will be at your cost, and at your risk.

Pricing and deliveries

All prices are shown per sqm unless otherwise stated and exclude VAT. Prices are accurate at time of printing. Trekker provide a range of delivery options. Please contact us to discuss a cost-effective delivery solution for your order.

The only limit is
your creativity
