ASSEMBLY AND FINISHING

- 1 Place your front and back panels on top of each other, with the wrong sides touching.
- 2 Thread the sewing needle with a length of yarn. Starting at the outside edges, use the horizontal invisible seam technique to sew up the shoulder seams.
- 3 When you get to the neck edge use the vertical invisible seam to sew up the side of the neck trim.

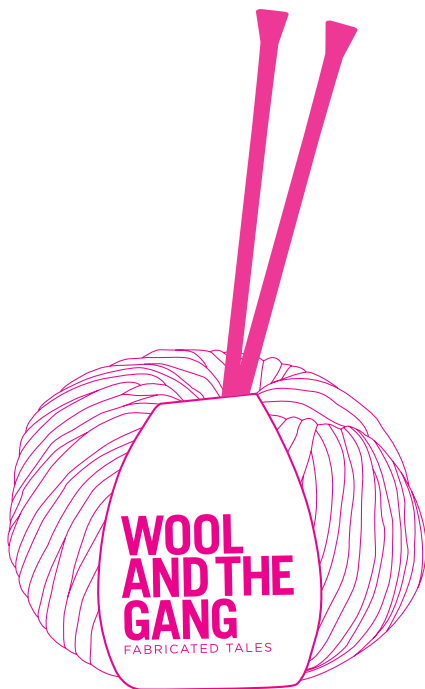

- 4 With the right sides facing up, line your sleeves up with the sewn-together front/back pieces, so that the centre of the cast off edge on the sleeve meets the shoulder seam. Use the perpendicular invisible seam technique to attach the sleeves to the body.

- 5 Repeat for the other sleeve.
- 6 With the right side facing outwards, fold your sweater along the shoulders and sleeves. Using the vertical invisible seam, sew the underarm seams.
- 7 Starting at the bottom edge of the right side of your sweater (the side without the slipped stitch edge) use the vertical invisible seam technique to sew the side seam.
- 8 Starting at the top of the reverse stocking stitch section, sew the left side seam using the vertical invisible seam.
