## ***HARD APPLE CIDER***

### **Eighth Day Hard Apple Cider**

A beverage enjoyed universally since Ancient times, apple cider is unique for its combination of the dryness and spritz of champagne, with the cold, refreshing qualities of a good beer.

Our Eighth Day Hard Apple Ciders display the Trust Mark ensuring they are made from 100% Granite Belt apples. By choosing ciders that display this trust mark you can be assured that the cider is made with fruit that meets Australia's strict food safety requirements.

The cider making process is remarkably similar to that of white wine. Our Eighth Day Hard apple ciders have been fermented in stainless steel to provide a crisp, clean finish. There has been minimal filtration used to retain the natural flavours and colours of the cider before being bottled cold to provide a beautiful spritz.
