

NANUK Adds New Larger Cases, Firearms and Outdoor Cases

Las Vegas, Nevada, January 21, 2020 - NANUK, with more than 35 years designing and developing world-class protective cases for valuable gear, announced the addition of four (4) new and large-size cases to their product line-up here at the 2020 SHOT Show in Las Vegas. Additionally, NANUK is launching a 3 UP Revolver Case, a First Aid Kit Case, a Kayak Case and an 8-Knife case.

The addition of the large-size 963, 965, 968, and 970 brings NANUK's case count to 30 in total, each available in multiple colors and options. The four (4) cases were added to meet the growing demand from tactical, law enforcement and military customers. Each is built to NANUK's high standard for protection and are built to take extreme abuse so expensive gear and equipment doesn't have to. Like the entire NANUK line, the four (4) new cases are built with an NK-7 resin shell that's waterproof, dustproof, impact resistant and lightweight, with rounded corners, thick walls, and oversized details. They're shock-absorbent to prevent damage to the case and, more importantly, to the valuable gear that they're made to protect.

Every NANUK case includes superior, patented PowerClaw latches which use compressive force to clamp the lid tight. For easy transportation the new 963, 965, 968 and 970 sport two spring-loaded handles and roll smoothly with their ultra-durable polyurethane wheels. They're backed with a lifetime warranty, NANUK's assurance that they build protective cases to last.

The interior dimensions for the four (4) new large cases are:

963: (29.0" x 18.0" x 10.6")

965: (29" x 18" x 14")

968: (21.5" x 21.5" x 11.8")

970: (24.0" x 24.0" x 14.2")

The NANUK 918 3UP Revolver Case is the ideal way for gun collectors, shooting sports enthusiasts and law enforcement officials to safely and securely transport their firearms. The high-quality, protective custom foam interior carries up to three (3) .22 caliber to .500 caliber revolvers with or without trigger locks. The compact NANUK 918 waterproof, dustproof and impact-resistant case accommodates revolvers with 3" to 8" barrel lengths. The protective foam also has a pre-cut slot for a NANUK Desiccant Pack which protects revolvers from rust and corrosion cause by moisture or high humidity. The NANUK 918 3UP Revolver Case has two lockable options (both sold separately): two reinforced metal eyelets accommodate TSA-accepted case locks and TSA latch retro-fit kits which are easy to install and add an extra measure of security.

Built to hold 8 single-blade folding knives, the NANUK 909 8-Knife Case is indestructible and built to protect and secure anyone's collection. The protective foam interior is pre-cut to hold up to 8 knives as long as 5 5/8" (closed) and 3/4" wide including pocket clip. The case will keep knives dust-free, dry and out of harm's way. The slim profile makes it the perfect case for knife organization, protection and transport. Like all NANUK cases, the 909 is waterproof IP-67 rated, built with NANUK's MIL-Spec indestructible NK-7 Resin, and equipped with their PowerClaw superior latching system. The NANUK 909 8-Knife Case has two reinforced metal eyelets which accommodate TSA-accepted case locks for additional security. Compatible with Spyderco, Kershaw, Benchmade, Cold Steel, Zero Tolerance, CRKT, Buck, Gerber, SOG and many other knife brands.

FOR IMMEDIATE RELEASE

The new NANUK 904 Waterproof First Aid Case helps avoid the worst-case scenario of a wet or damaged first aid kit. The NANUK case keeps first aid kits (sold separately) safe and dry and has been engineered and manufactured to stringent military specifications to surpass the needs of the most demanding users. The NANUK 904 is virtually indestructible, lightweight, watertight and features NANUK's patented PowerClaw latching system. Great for boats, cars, SUVs, first responders, rescue team, ambulance, police, fire, military, camping, businesses, schools, construction vehicles, emergency preparedness, disaster preparedness and more.

The NANUK 915 Kayak Case makes time on the water in a kayak, canoe, SUP, sailboat, powerboat, personal watercraft or diving that much more enjoyable. It was built to protect valuable equipment and important gear from water and sun damage while on the water. Protect iPads, drones, cameras, phones, keys, lunch bags, refreshments, maps, hats, extra clothing, nautical rope, and much, much more. The NANUK 915 Kayak Case floats, it's water-tight, secures to a bungy, fits in a cargo hatch, center console or in a storage compartment and its indestructible waterproof resin shell and patented, superior PowerClaw latches are, of course, included.
