**ALL ABOUT THAT
GOOD GUT FEELING**

hello!

MOON JUICE KOMBUCHA BREWS NATURALLY FERMENTED, FRESH, FIZZY, AND LONG-AGED KOMBUCHA PACKED WITH NUTRIENTS FOR GOOD ENERGY AND GOOD DIGESTION.

Launching from our brew pad here in Singapore, Moon Juice Kombucha was created with a mission to exterminate bloating, *one gut at a time*. Naturally forming enzymes, organic acids and probiotics in kombucha aid in digestion + gut health.

what is kombucha?

Kombucha is a fermented tea beverage that's functional and bubbly - a healthy, fun & yummy alternative that's perfect for any event and occasion! Only good vibes and good energy with our drinks that taste good and do good.

our kombucha

Moon Juice Kombucha is refreshing, delicious, all natural, alive, and always preservative-free.

Our flavourings are 100% made from scratch using only fresh and whole produce. We use a system of fruits, roots, vegetables, herbs, and flowers to flavour our drinks – with a goal of infusing more herbs into beverages.

Our tea blends are customised in-house using an Oolong base for complex, full-bodied, floral and warm notes in our flavours.
