Tibor Reels

The benchmark for custom crafted fly reels.

Gulfstream in Gold with Orange options and with Grand Slam.

All internal parts are sealed from the outside elements. Large outer hub offers quick retrieve. Impregnated cork disc drag system delivers the strongest, smoothest and most reliable performance on the water.

The New BackCountry

The BackCountry is designed and crafted with the same uncompromising standards. Suitable for a 5-7 weight rods with both fresh and saltwater conditions, even the most fragile tippet can be fished with complete confidence. Made from solid aluminum bar stock and has very few parts.

- Features a drag that cannot be set excessively tight, yet the spool won't over run if you pull line rapidly from it.
- Spool is easily removable. Extra spools are available.
- A clicker monitors line going out or coming in.
- Comes with a thick neoprene was AND a clear pocket window.

| Weights | Rods | Frame Size | Capacity |
|---------|------|---------------|---------------------------|
| 6 oz. | 5-7 | 3.50" x 1.50" | 150 yds. w/65 lb. jelspun |

Reels Retail: \$575 / Spools Retail: \$278

Gamefish and art engravings for the new BackCountry -

Art by Taylor Belinger

Billy Pate

The standard for the high performance fly reel.

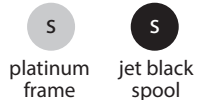

1975 was a hallmark year for the fly fishing world. It was then that Ted Juracsik introduced his first Anti-Reverse Tarpon Reel: The Billy Pate. No other reel has matched the Pate's durability and dependability day in day out, year after year, regardless of conditions, locale or species. This precision piece of equipment is designed to withstand the most demanding fly fishing environments.

| size | weight | rods | frame size | capacity* |
|----------|----------|-------|---------------|-------------------|
| Salmon | 8 oz. | 6-8 | 3.5" x 1.5" | 230 yds. w/ WF6F |
| Bonefish | 8.2 oz. | 7-9 | 3.5" x 1.65" | 300 yds. w/ WF7F |
| Tarpon | 11.5 oz. | 10-12 | 3.75" x 1.96" | 350 yds. w/ WF10F |
