Brushed Chocolate
An irresistible finish

ZUCCHETTI.

ITALIAN EXCELLENCE

Indulge your senses in the latest interior trend;
Brushed Chocolate.

With a growing need for more individuality and personalisation in today's bathroom, Zucchetti have yet again exceeded expectations in setting the trend with their latest finish. Through their collaboration with international designers, a touch of Italian flair and desire to never stop experimenting they have produced a finish that is truly delicious which will find itself right at home in both traditional and contemporary settings.

Now available in the iconic Helm and Pan collections.

HYGEA

In Greek as well as Roman mythology, Hygea was the goddess and personification of health, cleanliness and sanitation. She was associated with the prevention of sickness and the continuation of good health. Her name is the source of the word "hygiene".

Hygea is a new concept of smart toilet... its natural evolution. The electronic bidet module, that can be installed or replaced very easily like a cartridge, is inserted into the toilet bowl from above and is completely disconnected from its casing and from the seat.

FUNCTIONS

Posterior cleansing

"Auto" function (hygiene + dryer)

Oscillating nozzle

User's memories: 2

Anti-lime program

Feminine cleansing

Variable spray

Automatic cleansing of the nozzle

Remote control

Soft closing

"Kids" function

Position of the nozzle variable

Warm water with variable temperature setting

Radar sensor

Air drying: 2 intensities 5 temperature levels

Operational LED

Automatic draining of the tank

Dimming courtesy light

NUR

The "Sottosquadro" Curve

The NUR collection represents the pinnacle of Italian engineering and sanitary design, with the edges of the Nur washbasin requiring a reinterpretation of the classic casting process to accommodate the "Sottosquadro" curve.

Craftsmen are required to gradually remove the plaster molds by hand to allow for a multi-stage drying process. The negative inclination of the edge is unique and represents the renewed ambitious attitude of Alice together with the designer Massimiliano Braconi.

To transform this coastal home into a Balinese sanctuary, aligning with our client's vision of a tranquil oasis. They craved the serenity and natural charm of Bali, yearning for a soothing home. The existing layout was kept, but revamped it to maximise functionality and aesthetics.

Embracing earthy tones, textures, natural materials, and a calming colour palette, seamlessly blending indoor and outdoor spaces. Sustainability was also priority on this project. Replacing harmful materials with eco-friendly alternatives like natural stone, timber, and linen, creating a serene urban retreat.

Despite pandemic-related challenges, the designer collaborated with local suppliers, adapting to the new normal. Design highlights include locally carved panels, metal mesh replacing rattan, oak timber flooring, and honed stone surfaces with edge-lit shelving. Grasscloth wallcoverings, wooden battens, and rattan-inspired paper added character.

The property boasts intricate details from illuminated concrete steps to a cedar exterior with unique batten arrangements. The interiors grasscloth wallpaper, stone tiles, and timber by the pool create an atmosphere of calm and elegance, a true Balinese oasis in the heart of the city.

In summary, this project merged Balinese style with modern sustainability, creating a property that's functional, beautiful, and eco-conscious. It's a place where you can escape the city's hustle, immersing yourself in the peaceful ambiance of a Balinese retreat.

What finish would you choose for your own home?

Good question and the simple answer is Brushed Nickel, in fact we have chosen Zucchetti Gill tapware in Brushed Nickel for our new home that we are building. Brushed Nickel is timeless and has been around longer than I have, it will never go out of fashion and it's easy to match with all bathroom furniture.

What is your favourite product/ collection right now?

There are so many new products and collections to choose from at the moment, but one of my top choices would have to be the Sensation basins from one of our new suppliers Cotto. Loving the range available and not to mention the quality of the product, finish and waste fittings are second to none. I can't wait to see them in our clients bathrooms!

What do you love about Wellington?

Well firstly we moved to be closer to family and secondly I love the vibe of Wellington, there's always something to do and there's so many cool cafes, restaurants alley ways and lanes with something to surprise. I liken the hospo industry to that of Melbourne on a smaller scale. As old as I am and as long as I have been in this industry, moving to Wellington has given me new challenges and opportunities and I look forward to everyone getting to know me better. Last but not least the Wellington weather has been better than Auckland and you can't beat Wellington on a good day!

KUNAL SHAHANEY
NATIONAL A&D MANAGER
ARCHITECTURAL CONSULTANT

What finish would you choose for your own home?

My dream bathroom would have Matt White toilets with camouflaged push button set. For the vanity, I would love to use wall mounted gunmetal Pettine tapware with a matt white Settecento vessel basins. Matching gunmetal showers will have separate controllers for the slide shower and overhead rain, giving me the ability to have both going at the same time.

What is your favourite product/ collection right now?

Garda Matt White/Black toilets; Uno Etch Tapware with Uno Progressive Shower Mixers, Apaiser Tulle baths and Vessels over the Loom Vanity.

What do you love about Wellington?

Well, there is so much to love about Wellington, but the one thing I absolutely love about Windy Welly is that there's always a Café at a stone's throw. You're never too far away from a coffee! Haha!

CAITLIN CARTER
SHOWROOM CONSULTANT

What finish would you choose for your own home?

I would probably choose black because I think it's such a timeless finish that looks super classy and elegant, however it would be cool to have a pop of colour in the powder room possibly with Brushed Brass tapware!

What is your favourite product/ collection right now?

My favourite product right now is probably the Tulle Freestanding Bath from Apaiser! It is such a cool fluted design which you can get in so many different colours, and then you can match to your basin as well! I have never seen a bath like this and it would be sure to make a centre piece in a bathroom.

What do you love about Wellington?

I love so many things about Wellington but one thing that stands out to me is the lively spirit of the city. There are always so many gigs or events going on which is a great chance to get out and see something new with your friends! The characters you see also make Wellington so unique, there is a man who dresses up as a tree with a bunch of fairy lights and plays the saxophone! It always makes me smile when I see him.

What finish would you choose for your own home?

Zucchetti Pan in Brushed Nickel. Brushed Nickel is a safe step into a coloured range of tapware and it doesn't limit you when it comes to adding a feature piece like a coloured vessel or vanity. Brushed Nickel works with everything.

What is your favourite product/ collection right now?

This one is tough – we have so many great options to choose from its hard to pick just one. If I have to pick id go with Zucchetti Helm. Helm is a perfect mix of traditional and subtle industrial. Its an incredible range and has options that allow you to tailor it to your own preference.

What do you love about Wellington?

This one is easier to answer. Wellington has a diverse range of people from all walks of life making it a melting pot of different experiences and perspectives. It's a breeding ground for creativity ranging from street art and quirky stores through to exclusive galleries, events and production studios. Wellington is an inclusive city and is a real representation of never judge a book by its cover. As an added bonus Wellington also has more restaurants and cafes per capita than New York and offers a huge range of speciality coffee roasters. *It would benefit from an indoor skatepark though.

OLIVE DESBONNETS
SHOWROOM CONSULTANT

What finish would you choose for your own home?

I would choose Brushed Brass, love the gold finish.

What is your favourite product/ collection right now?

The Paris Loom vanities. I like the dark walnut timber finish and the horizontal pattern adds a nice texture.

What do you love about Wellington?

I love being in the city, lots of good shops and cafes around to visit.
