

## Zucchetti Waterwords + Lab - Finiture 2021

Per soddisfare le molteplici esigenze del lifestyle contemporaneo, le collezioni Zucchetti sono proposte in diverse finiture.

Le varianti colore disponibili consentono al progettista di spaziare, per creare progetti personalizzati.

Per le serie in ottone le finiture metalliche nickel (C8-C3), oro (C40-C41) e metal black (C50-C51) sono disponibili sia nella variante lucida che nella variante spazzolata e sono realizzate con processo galvanico.

La finitura rose gold (P70) è invece ottenuta con procedimento PVD.

Le finiture bianco opaco goffrato (W1), nero opaco goffrato (N1) e nero opaco (N6) sono realizzate con verniciatura a polvere.

Le serie in acciaio inox sono invece disponibili in 4 varianti colore oltre alla finitura base acciaio spazzolato (X). Le varianti colore, ottenute con procedimento PVD, sono: brushed british gold (XP31), brushed gold (XP41), brushed total black (XP81) e brushed copper (XP91).

Tutti i rivestimenti superficiali sono accuratamente realizzati per garantire la perfetta qualità del prodotto e la migliore durata nel tempo.

Per mantenere al meglio le superfici si raccomanda di pulirle con acqua e sapone, utilizzando un panno morbido. Non impiegare detersivi che contengono acido cloridrico o sostanze abrasive.

## Zucchetti Waterwords + Lab - 2021 Finishes

To meet today's multiple lifestyle needs, Zucchetti collections are offered in various finishes.

The available different color variants allow interior designers to have a whole range of ideas for the creation of personalized projects.

For the brass series, the metal finishes, nickel (C8-C3), gold (C40-C41) and metal black (C50-C51), are available in both polished and brushed variants and they are produced using the galvanic process.

The rose gold finish (P70) is instead achieved with the PVD treatment.

The embossed matt white (W1), embossed matt black (N1) and matt black (N6) finishes are made with powder coating.

The stainless steel series are available in four color variants in addition to the brushed steel base finish (X). The color finishes, obtained with PVD treatment, are: brushed british gold (XP31), brushed gold (XP41), brushed total black (XP81) and brushed copper (XP91).

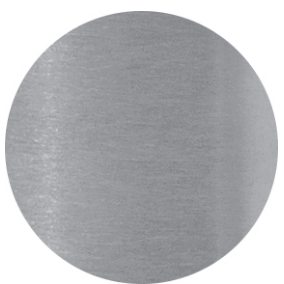

All surface coatings are carefully made to guarantee the perfect quality of the product and the best duration over time.

For best care of surfaces, use a soft cloth, soap and water to clean. Do not use detergents containing chloridric acid or abrasive substances.
