Ultimate Packing List

It doesn't matter how often you travel, being organised will help you get on the road with peace of mind. One way to help prepare is by having a packing list.

The Ultimate Packing List is the perfect packing guide! If you like using lists, you can now have one already made for you. If you don't usually make a packing list, you are going to be amazed at how much easier preparing for your trips will be when you use it.

The Ultimate Packing List is an all-inclusive list intended for you to customise to meet your needs. Think about these things when preparing for your trip:

- What will the weather be like? Make use of less-bulky layers for cooler temperatures.
- Do you need casual clothing? Fancy clothing? Both?
- How long will you be gone?
- Will you have access to laundry facilities?
- What will comfortably fit into your luggage?

TIP: Travelling light helps make for a better trip. Let the Ultimate Packing List be a guide that helps you customise what you need to pack. Take note of what you didn't need so that you can travel even lighter next time.

ULTIMATE PACKING LIST
