WHY YOU NEED BEAUTY SHIELD

Created for you by our team of advanced nutritionists, biochemists, and physicians, **Beauty Shield** reveals and accentuates your natural beauty. **Beauty Shield** restores and strengthens your health from within for the fullest hair, most youthful skin and strongest nails. Feel and see the difference that maximum potency, purity and bioavailability can make. **Beauty Shield** is the most active, complete and advanced nutrient complex to reveal your most radiant beauty.

KEY INGREDIENTS FOR ADVANCED NUTRIENT SUPPORT

Biotin

Biotin, like other B-complex vitamins, is a key ingredient in the proteins (collagen, elastin and keratin) that make up your hair, skin and nails. Each serving of **Beauty Shield** provides a generous 2.5 mg of naturally sourced, fully-active biotin, in synergy with other key nutrients, to create the nutritional support you need for radiant hair, skin and nails. Each serving of **Beauty Shield** helps to smooth and minimize skin lines and wrinkles; provide hair resilience, bounce and suppleness; and make hair and nails thick and strong.

L-Lysine and Zinc

L-lysine benefits your skin by playing a key role in elastin and collagen formation. It helps prevent wrinkles and repairs damage to your skin. Each serving of **Beauty Shield** provides 200 mg of L-lysine, in combination with complementary nutrients—most importantly, zinc. Zinc, in tandem with L-lysine, combats acne and repairs and renews your skin to reveal a fresher complexion.

ADDITIONAL 100% ALL-ACTIVE INGREDIENT FEATURES

- **Calcium and vitamin D** support, to ensure well-balanced nutrition as the foundation for healthy hair, skin and nails.
- **Vitamins K1 and K2** to strengthen bones, and benefit all solid structures – tendons, ligaments, hair, nails and teeth.
- **200 mg of vitamin C** to help build collagen and provide essential antioxidant support. Antioxidants fight damage already done to skin.
- Comprehensive trace mineral support, including **silica, chromium, manganese, iodine, selenium and zinc**; trace minerals support general well being and the healthy appearance of hair, skin and nails.
- **Silica** is vital to collagen formation, and ensuring hair, skin and nails receive proper nutrient support.
- **Copper** helps to form strong, flexible connective tissues, and strong muscles, nerves and immune system.
- 100 mcg of **iodine** to fortify integumentary tissues weakened by hypothyroidism (underactive thyroid).
