

L-ASCORBATE FULLY REDUCED,
FULLY BUFFERED
OVER 300 PEER-REVIEWED STUDIES

WHY VITAMIN C SHIELD IS BETTER

When evaluating vitamin C, choose the supplement with the most health-promoting impact. **Vitamin C Shield** is the most powerful form of vitamin C on the market today.* The scientific literature has confirmed vitamin C's key role in:

1. Immune system function
2. Collagen repair and formation
3. Joint function
4. Energy production
5. Antioxidant protection and function
6. Detoxification, and more

Vitamin C Shield enhances hormone production and function as needed, and helps the body to adapt better. In addition, it is important to take the amount of ascorbate needed to keep an adequate supply in the cells. This varies based on levels of distress, toxins, acute and delayed allergy reactions, and cell buffering/alkaline reserve. Optimum ascorbate use is based on calibration of need (see ascorbate calibration instructions) or as directed by your health professional.**

VITAMIN C SHIELD IS YOUR ONLY CHOICE

Vitamin C Shield is a pH-balanced, vegetarian, allergen-free, and completely buffered mineral ascorbate. It uses 100% l-ascorbate, fully reduced, corn free, which works harder, more quickly and more persistently in the body.*

Vitamin C Shield prevents free radicals from harming the ascorbate. Also, the cofactors, metabolites, and transporters in **Vitamin C Shield** powerfully enhance absorption and tissue action. In addition, **Vitamin C Shield** is free of the side effects associated with other vitamin C supplements.*

Vitamin C Shield contains a balance of essential minerals: calcium, magnesium, potassium, and zinc. Most Americans are deficient in one or more of these key minerals, due to stress, ill health, food processing, toxins, and other factors.*

Vitamin C Shield tastes better than other vitamin C powders, so you are more likely to stick with it. When mixed with water or juice, it produces a tasty, slightly effervescent drink.*

PURITY, PURITY, PURITY

Vitamin C Shield is produced with an exclusive, triple recrystallization process. This innovative technique creates a product with unprecedented purity and bioactivity.*

ASCORBATE AND BLOOD PRESSURE

Vitamin C Shield is your safer, more effective choice. Obesity, alcohol consumption, physical inactivity, and a high-fat/ protein/sugar diet can induce high blood pressure, in part through insulin resistance (Syndrome X). The greatest benefit comes from full tissue saturation of fully reduced and fully buffered ascorbate.*

Ascorbate:

- Protects delicate endothelial cells that line blood vessels from free radical and toxin damage.
- Increases nitrous oxide (nature's small vessel relaxation molecule) thus lowering blood pressure via enhanced biopterin action.
- Induces the production of collagen.*

GET THE LEAD OUT

Vitamin C Shield is effective at lowering the body's burden of toxic minerals such as lead, mercury, cadmium, arsenic, and nickel. This action occurs both by decreasing uptake of toxic minerals from the intestine and by increasing renal and stool excretion of toxic minerals.*

ONE LEVEL HALF-TEASPOON OF VITAMIN C SHIELD POWDER PROVIDES

ENERGIZED NUTRIENTS

Vitamin C (as 100% L-ascorbates, fully reduced and buffered)	1,584 mg.
Potassium (as ascorbate)	99 mg.
Calcium (as ascorbate)	40 mg.
Magnesium (as ascorbate)	16 mg.
Zinc (as ascorbate)	600 mcg.

Other Ingredients: None

WARNING

Pregnant and nursing mothers need to check with their health professional before taking supplements.

TYPICAL DOSAGE

As a dietary supplement, take one level half-teaspoon mixed with four (4) ounces of liquid or as directed by your health professional. Use only dry transfer spoons. Keep tightly capped and moisture free. Please take a few deep, relaxing breaths while the natural effervescence subsides (~1 min.)

Available in 8-ounce and 16-ounce bottles.

NOTE: Each 8-ounce bottle contains 112 servings with a total of 227 grams of ascorbate.

Each 16-ounce bottle contains 224 servings with a total of 454 grams of ascorbate.
