

DMARK SANGER SEQUENCING REAGENTS: THE OPTIMAL CHOICE FOR DNA SEQUENCING

Your Cost-Effective Solution.

SNAPDye Terminator v3.1 Cycle Sequencing Kit

-  **ABI Genetic Analyzers:** Fully compatible.
-  **Targeted Applications:** Designed for both de-novo sequencing and resequencing.
-  **Seamless Integration:** No alterations to your workflow, protocols, or settings.
-  **Developed for Dye Set Z & Comes as a 2.5x concentrated mix.**
-  **Performance Stats:**
 - Uniform peak heights and minimal background interference.
 - Long sequence reads accompanied by high confidence scores.

SNAPDye Terminator v1.1 Cycle Sequencing Kit

-  **Sanger Method:** Founded on the trusted Dideoxynucleotide Chain Termination approach.
-  **Optimal Chemistry:** Optimized with flexibility as the key.
-  **Diverse Applications:** Suitable for all sequencing requirements including de-novo & resequencing.
-  **Superior Data Generation:** Experience uniform peak heights, extreme low backgrounds, and optimized signal balance.
-  **Precision in Detection:** Pinpoint accuracy for heterozygote and mutation detection.

CRKLnPOP 7 for 3730 Series: The Performing Polymer

-  **Analyzer Compatibility:** Crafted for 3730, 3730XL DNA Analyzers, and 3130 Genetic Analyzers.
-  **Save Big:** Gain equivalent accuracy, signal strength, and read lengths as the competitive ones' at a fraction of the price.
-  **Universal Application:** A pre-formulated matrix for DNA sequencing in capillary electrophoresis systems.

SNAPDye 5x Sequencing Buffer

-  **Versatility:** A cost-effective alternative to competitive sequencing buffers.
-  **Specific Usage:** Best used with SNAP sequencing kits for precise reaction volume adjustments.

Product	SKU	Size
SNAPDye Terminator v3.1 Cycle Sequencing Kit	DM-SNAP3-024	24 rxns
	DM-SNAP3-100	100 rxns
	DM-SNAP3-1000	1000 rxns
	DM-SNAP3-5000	5000 rxns
	DM-SNAP3-25K	25000 rxns
SNAPDye Terminator v1.1 Cycle Sequencing Kit	DM-SNAP1-024	24 rxns
	DM-SNAP1-100	100 rxns
	DM-SNAP1-1000	1000 rxns
	DM-SNAP1-5000	5000 rxns
	DM-SNAP1-25K	25000 rxns
SNAPDye 5x Sequencing Buffer	DM-SNAP5XB-28	28 mL
CRKLnPOP 7 for 3730 series	DM-POP7-28	28 mL

Don't compromise on quality or value. Choose the best for your DNA analysis needs.
