

MACHEREY-NAGEL

NucleoBond® Promotion

NucleoBond® – Next level plasmid DNA purification

Plasmid purification solutions with optimized performance

- New! NucleoBond® RS columns for vaccine-grade plasmid DNA
- Superior midi to giga scale endotoxin-free options
- Proven and consistent anion exchange technology

NEW! NucleoBond®RS columns

Plasmid purification in compliance with high regulatory standards

- Vaccine-grade plasmid DNA purification
- Closed columns for peristaltic pump or FPLC processing
- Scalable system for up to 200 mg plasmid DNA
- Endotoxin levels ≤ 0.01 EU/µg DNA

NEW! NucleoBond® Xtra Midi/Maxi EF application data

- Endotoxin-free plasmid DNA purification with high yield and purity
- Contact us to view the latest comparison data with competitor brands

Product	Theoretical binding capacity	REF	Preps	List Price (\$)	Promo price (\$)
Vaccine-grade plasmid DNA			`		
NucleoBond® RS 10 Columns	Up to 10 mg	MN-743502	5	720.00	576.00
NucleoBond® RS 50 Columns	Up to 50 mg	MN-743503	1	690.00	552.00
NucleoBond® RS 100 Columns	Up to 100 mg	MN-743504	1	1328.00	1062.40
NucleoBond® RS 200 Columns	Up to 200 mg	MN-743505	1	2359.00	1887.20
Endotoxin-free plasmid DNA					
NucleoBond® Xtra Midi EF	800 µg	MN-740420.50	50	1 215.00	972.00
NucleoBond® Xtra Midi Plus EF*	800 µg	MN-740422.50	50	1450.00	1160.00
