The power of *simplicity*.

With the Fontus NGS workstation, NGS library prep has never been easier. Its pre-designed NGS configurations, vendor-qualified library of automated methods, user-friendly software and reformatting capabilities help you breeze through library prep with none of the head-scratching. Choose from up to 8, 96 or 384 sample pipetting options to suit your needs—all optimized for NGS applications.

The power of *reliability*.

Built on the strong foundations of our trusted Sciclone® and Zephyr® technologies, the Fontus NGS workstation takes automated NGS library prep to the next level with a robust system with expanded capabilities that just keeps on performing. Make downtime a thing of the past with our 35 years' industry experience and watertight collaborations with leading NGS kit vendors behind you.

The power of *support*.

With Revvity, you have a powerful, reliable NGS team behind you, dedicated to getting you up and running and helping to develop your NGS workflows so you can breathe easy.

8 Tip Varispan for tube to plate reformatting

Main Array arm gripper to move labware

Efficient deck arrangement
