

User manuals

NucleoType DirectLyse Reagent 743220

Dear valued customer,

Thank you for choosing MACHEREY-NAGEL for your application. We have attached a short protocol for your review.

To obtain the best results we recommend to follow the detailed protocol available online, especially when you are a first time user of this kit.

All important links to the above mentioned product are listed in this leaflet.

Important information regarding product components, specifications, safety instructions, and processing protocols, can all be found on the product website and accessed easily via the QR code.

QR-Code product website

[qr.mn-net.com/qr/\(241\)743220](https://qr.mn-net.com/qr/(241)743220)

Use the following QR code or the link below for direct access to the user manual.

QR-Code user manual

[qr.mn-net.com/qr/\(IFU\)743220](https://qr.mn-net.com/qr/(IFU)743220)

It is highly advised to review the comprehensive protocol section in the user manual when using the kit for the first time.

We are continually improving our products and protocols, and we reserve the right to make changes or additions to protocols. Kindly check for updated revisions if you have previously downloaded manuals.

It's important to note that this leaflet is not a substitute for the complete manual! The user manual contains protocols and parameters for the following sample types:

- Tissue samples (e.g. ear punches, mouse tail clips)
- Hair
- Cultivated cells
- Blood
- Swabs
- Seeds
- Plant tissue

QR-Code Safety Data Sheet

Please find a digital version of the safety data sheets by following the link below:

www.mn-net.com/sds

We strongly recommend to carefully read the detailed protocol section of the product's user manual. If you have any questions about the protocol or product, please contact our Technical Support.
