Universal 5W LED Emergency Exit Box (HSEM/LED5)

The newly launched 5w LED Universal Emergency Exit Box from Hispec, is supplied complete a screen printed legend and designed to be located over an exit door. Although prepared for maintained operation the fitting is easily adapted to be used as non-maintained by simply removing the link cable. There are cable knockouts on the sides and on the rear of the unit.

You will also notice that two key hole slots have been incorporated into the back of this fitting so that installation is very simple and straightforward.
