DESCRIPTION	Is a highly effective chemical cleaner to remove paint film from different surfaces. It removes all types of dried paint films, also useful for removal of varnish films.
RECOMMENDED USE	To remove all types of dried paint and varnish films from various surfaces, like metals, concrete, plaster, glass etc.

TECHNICAL DATA

COLOURS	Transparent
APPEARANCE	Fluffy thick liquid
SPREADING RATE	The spreading rate will depends on various factors e.g. surface nature, paint or varnish film thickness. The quality and type of paint film etc.
SPECIAL PRECAUTION	Use hand gloves, while using National Paint remover. It should not come in contact with the skin. In case of any accidental skin contact, wash the affected area with fresh water.

APPLICATION DATA

APPLICATION METHOD	Brush or scrapper or stiff brush
THINNING (VOLUME)	Ready to use
METHOD OF USE	Apply thick coat of National Paint Remover on the old paint film. Allow it to react for 5 - 10 minutes, during this time paint film will be soft. Soften film, along with excess chemical can easily be removed with knife or scrapper. If the film is very thick or hard, it may be necessary to repeat the process more than once. After complete removal of paint film, wash the surface with fresh water.

MISCELLANEOUS DATA

FLASH POINT	Non-flammable
SHELF LIFE @ 30°C	18 months in original sealed containers, with proper storage conditions.
