# **SAFETY DATA SHEET**

| Section 1. Identi  | fication  |
|--|---|
| GHS product identifier                                     | :   |
| Product code   | : 706   |
| Other means of identification                              | : Not available.  |
| Product type   | : Liquid.   |
| Relevant identified uses o                                 | f the substance or mixture and uses advised against   |
| Identified uses  | : Cleaning solvent.   |
| Supplier's details   | :   |
|  |   |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC, U.S. : 1-800-424-9300<br>International: +1-703-527-3887<br>24 hours   |
| Section 2. Hazar   |   |
| OSHA/HCS status  | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).   |
| Classification of the<br>substance or mixture              | <ul> <li>FLAMMABLE LIQUIDS - Category 2<br/>ACUTE TOXICITY (oral) - Category 4<br/>ACUTE TOXICITY (dermal) - Category 4<br/>ACUTE TOXICITY (inhalation) - Category 4<br/>SKIN CORROSION/IRRITATION - Category 2<br/>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A<br/>TOXIC TO REPRODUCTION (Unborn child) - Category 2<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 1<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 1<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -<br/>Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (hearing organs) -<br/>Category 2</li> </ul> |
|  | AQUATIC HAZARD (ACUTE) - Category 2   |

Signal word

: Danger

| Section 2. Hazar                    |   |
|-------------------------------------|---|
| Hazard statements                   | <ul> <li>H225 - Highly flammable liquid and vapor.<br/>H302 + H312 + H332 - Harmful if swallowed, in contact with skin or if inhaled.<br/>H319 - Causes serious eye irritation.<br/>H315 - Causes skin irritation.<br/>H361 - Suspected of damaging the unborn child.<br/>H370 - Causes damage to organs.<br/>H336 - May cause drowsiness or dizziness.<br/>H373 - May cause damage to organs through prolonged or repeated exposure. (hearing organs)<br/>H401 - Toxic to aquatic life.</li> </ul>   |
| Precautionary statements            |   |
| Prevention                          | <ul> <li>P201 - Obtain special instructions before use.</li> <li>P202 - Do not handle until all safety precautions have been read and understood.</li> <li>P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.</li> <li>P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P241 - Use explosion-proof electrical, ventilating, lighting and all material-handling</li> </ul>  |
|                                     | equipment.<br>P242 - Use only non-sparking tools.<br>P243 - Take precautionary measures against static discharge.<br>P233 - Keep container tightly closed.<br>P271 - Use only outdoors or in a well-ventilated area.<br>P273 - Avoid release to the environment.<br>P260 - Do not breathe vapor.<br>P270 - Do not eat, drink or smoke when using this product.<br>P264 - Wash hands thoroughly after handling.  |
| Response                            | <ul> <li>P314 - Get medical attention if you feel unwell.</li> <li>P307 + P311 - IF exposed: Call a POISON CENTER or physician.</li> <li>P304 + P340 + P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.</li> <li>P301 + P312 + P330 - IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell. Rinse mouth.</li> <li>P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.</li> <li>P302 + P352 + P312 + P362 + P364 - IF ON SKIN: Wash with plenty of soap and water Call a POISON CENTER or physician if you feel unwell. Take off contaminated clothing and wash it before reuse.</li> <li>P332 + P313 - If skin irritation occurs: Get medical attention.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical attention.</li> </ul> |
| Storage                             | <ul> <li>P405 - Store locked up.</li> <li>P403 - Store in a well-ventilated place.</li> <li>P235 - Keep cool.</li> </ul>  |
| Disposal                            | <ul> <li>P501 - Dispose of contents and container in accordance with all local, regional, national<br/>and international regulations.</li> </ul>  |
| Hazards not otherwise<br>classified | : None known.   |

### Section 3. Composition/information on ingredients

#### Substance/mixture

#### Other means of identification

- : Mixture : Not available.
- % CAS number Ingredient name Toluene ≥25 - ≤50 108-88-3 Acetone ≥25 - ≤50 67-64-1 Methanol ≥10 - ≤25 67-56-1 Naphtha (petroleum), hydrotreated heavy ≥5 - ≤10 64742-48-9 2-Butoxyethanol ≥5 - ≤8.3 111-76-2 123-86-4 ≥3 - ≤5 n-Butyl acetate Solvent naphtha (petroleum), light arom. ≥1 - ≤3 64742-95-6

The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

| Description of necess | ary first aid measures   |
|-----------------------|--|
| Eye contact           | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20<br/>minutes. Get medical attention. If necessary, call a poison center or physician.</li> </ul>   |
| Inhalation            | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.  |
| Skin contact          | : Wash with plenty of soap and water. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 20 minutes. Get medical attention. If necessary, call a poison center or physician. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |
| Ingestion             | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

Most important symptoms/effects, acute and delayed

### Potential acute health effects

- Eye contact
- : Causes serious eye irritation.
- Inhalation : Harmful if inhaled. Causes damage to organs following a single exposure if inhaled. Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.

Tel: +1-888-GHS-7769 (447-7769) / +1-450-GHS-7767 (447-7767) www.kmkregservices.com www.askdrluc.com www.ghssmart.com

| Skin contact               | : Harmful in contact with skin. Causes damage to organs following a single exposure in  |
|----------------------------|---|
| Ingestion                  | <ul> <li>contact with skin. Causes skin irritation.</li> <li>Harmful if swallowed. Causes damage to organs following a single exposure if swallowed. Can cause central nervous system (CNS) depression.</li> </ul>  |
| Over-exposure signs/sym    |   |
| Eye contact                | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                 | <ul> <li>Adverse symptoms may include the following:<br/>nausea or vomiting<br/>headache<br/>drowsiness/fatigue<br/>dizziness/vertigo<br/>unconsciousness<br/>reduced fetal weight<br/>increase in fetal deaths<br/>skeletal malformations</li> </ul>   |
| Skin contact               | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
| Ingestion                  | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| ndication of immediate me  | dical attention and special treatment needed, if necessary  |
| Notes to physician         | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments        | : No specific treatment.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media            |  |
|--------------------------------|--|
| Suitable extinguishing media   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet or water-based fire extinguishers.        |

### Section 5. Fire-fighting measures

| U   |  |
|---|--|
| Specific hazards arising from the chemical        | : Highly flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with the<br>risk of a subsequent explosion. This material is toxic to aquatic life. Fire water<br>contaminated with this material must be contained and prevented from being discharged<br>to any waterway, sewer or drain. |
| Hazardous thermal decomposition products          | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |
|   |  |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources. No<br>flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put<br>on appropriate personal protective equipment. |
|--------------------------------|---|---|
| For emergency responders       | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to<br>the environment if released in large quantities.   |

Methods and materials for containment and cleaning up

Spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

Precautions for safe handling

## Section 7. Handling and storage

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Avoid exposure during pregnancy. Do not<br>handle until all safety precautions have been read and understood. Do not get in eyes<br>or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the<br>environment. Use only with adequate ventilation. Wear appropriate respirator when<br>ventilation is inadequate. Do not enter storage areas and confined spaces unless<br>adequately ventilated. Keep in the original container or an approved alternative made<br>from a compatible material, kept tightly closed when not in use. Store and use away<br>from heat, sparks, open flame or any other ignition source. Use explosion-proof<br>electrical (ventilating, lighting and material handling) equipment. Use only non-sparking<br>tools. Take precautionary measures against electrostatic discharges. Empty containers<br>retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures. Remove contaminated clothing and protective equipment before entering eating areas.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in a segregated and approved area.<br>Store in original container protected from direct sunlight in a dry, cool and well-ventilated<br>area, away from incompatible materials (see Section 10) and food and drink. Store<br>locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep<br>container tightly closed and sealed until ready for use. Containers that have been<br>opened must be carefully resealed and kept upright to prevent leakage. Do not store in<br>unlabeled containers. Use appropriate containment to avoid environmental<br>contamination. See Section 10 for incompatible materials before handling or use.  |

### Section 8. Exposure controls/personal protection

#### Control parameters

#### **Occupational exposure limits**

| Ingredient name | Exposure limits  |
|-----------------|--|
| Toluene         | OSHA PEL Z2 (United States, 2/2013).                       |
|                 | TWA: 200 ppm 8 hours.                                      |
|                 | CEIL: 300 ppm  |
|                 | AMP: 500 ppm 10 minutes.                                   |
|                 | NIOSH REL (United States, 10/2016).                        |
|                 | TWA: 100 ppm 10 hours.                                     |
|                 | TWA: 375 mg/m³ 10 hours.                                   |
|                 | STEL: 150 ppm 15 minutes.                                  |
|                 | STEL: 560 mg/m <sup>3</sup> 15 minutes.                    |
|                 | ACGIH TLV (United States, 3/2018).                         |
|                 | TWA: 20 ppm 8 hours.                                       |
| Acetone         | ACGIH TLV (United States, 3/2018).                         |
|                 | TWA: 250 ppm 8 hours.                                      |
|                 | STEL: 500 ppm 15 minutes.                                  |
|                 | NIOSH REL (United States, 10/2016).                        |
|                 | TWA: 250 ppm 10 hours.                                     |
|                 | TWA: 590 mg/m <sup>3</sup> 10 hours.                       |
|                 | OSHA PEL (United States, 5/2018).                          |
|                 | TWA: 1000 ppm 8 hours.                                     |
|                 | TWA: 2400 mg/m <sup>3</sup> 8 hours.                       |
| Methanol        | ACGIH TLV (United States, 3/2018). Absorbed through skin.  |
|                 | TWA: 200 ppm 8 hours.                                      |
|                 | TWA: 262 mg/m <sup>3</sup> 8 hours.                        |
|                 | STEL: 250 ppm 15 minutes.                                  |
|                 | STEL: 328 mg/m <sup>3</sup> 15 minutes.                    |
|                 | NIOSH REL (United States, 10/2016). Absorbed through skin. |
|                 | TWA: 200 ppm 10 hours.                                     |
|                 | TWA: 260 mg/m <sup>3</sup> 10 hours.                       |
|                 | STEL: 250 ppm 15 minutes.                                  |

Tel : +1-888-GHS-7769 (447-7769) / +1-450-GHS-7767 (447-7767) www.kmkregservices.com www.askdrluc.com www.ghssmart.com

# Section 8. Exposure controls/personal protection

| Naphtha (petroleum), hydrotreated heavy<br>2-Butoxyethanol | STEL: 325 mg/m <sup>3</sup> 15 minutes.<br><b>OSHA PEL (United States, 5/2018).</b><br>TWA: 200 ppm 8 hours.<br>TWA: 260 mg/m <sup>3</sup> 8 hours.<br>None.<br><b>ACGIH TLV (United States, 3/2018).</b><br>TWA: 20 ppm 8 hours.<br><b>NIOSH REL (United States, 10/2016). Absorbed through skin.</b><br>TWA: 5 ppm 10 hours.<br>TWA: 5 ppm 10 hours. |
|--|--|
| n-Butyl acetate  | TWA: 24 mg/m <sup>3</sup> 10 hours.<br><b>OSHA PEL (United States, 5/2018). Absorbed through skin.</b><br>TWA: 50 ppm 8 hours.<br>TWA: 240 mg/m <sup>3</sup> 8 hours.<br><b>NIOSH REL (United States, 10/2016).</b>  |
|  | TWA: 150 ppm 10 hours.<br>TWA: 710 mg/m <sup>3</sup> 10 hours.<br>STEL: 200 ppm 15 minutes.<br>STEL: 950 mg/m <sup>3</sup> 15 minutes.<br><b>OSHA PEL (United States, 5/2018).</b>   |
|  | TWA: 150 ppm 8 hours.<br>TWA: 710 mg/m <sup>3</sup> 8 hours.<br><b>ACGIH TLV (United States, 3/2018).</b><br>STEL: 150 ppm 15 minutes.<br>TWA: 50 ppm 8 hours.   |
| Solvent naphtha (petroleum), light arom.                   | None.  |

| Appropriate engineering controls | :   | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.  |
|----------------------------------|-----|--|
| Environmental exposure controls  | :   | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.  |
| Individual protection measu      | res |  |
| Hygiene measures                 | :   | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection              | :   | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.   |
| Skin protection                  |     |  |
| Hand protection                  | :   | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |
| Body protection                  | :   | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.  |

## Section 8. Exposure controls/personal protection

| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
|------------------------|--|
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. |

### Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |
|--|---|
| Physical state                               | : Liquid. [Clear.]                              |
| Color  | : None.   |
| Odor   | : Solvent.                                      |
| Odor threshold                               | : Not available.                                |

### Section 10. Stability and reactivity

| Incompatible materials             | : Reactive or incompatible with the following materials: oxidizing materials.   |
|------------------------------------|---|
| Conditions to avoid                | : Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Chemical stability                 | : The product is stable.  |
| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |

Ingestion : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations

### Section 11. Toxicological information

#### Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>    |     |  |
|-------------------------------|-----|--|
| Potential immediate           | 1   | No known significant effects or critical hazards.                  |
| effects                       |     |  |
| Potential delayed effects     | 1   | No known significant effects or critical hazards.                  |
| <u>Long term exposure</u>     |     |  |
| Potential immediate           | 1   | No known significant effects or critical hazards.                  |
| effects                       |     |  |
| Potential delayed effects     | :   | No known significant effects or critical hazards.                  |
| Potential chronic health effe | ect | <u>S</u>   |
| General                       | 1   | May cause damage to organs through prolonged or repeated exposure. |
| Carcinogenicity               | 1   | No known significant effects or critical hazards.                  |
| Mutagenicity                  | :   | No known significant effects or critical hazards.                  |
| Teratogenicity                | 1   | Suspected of damaging the unborn child.                            |
| Developmental effects         | 1   | No known significant effects or critical hazards.                  |
| Fertility effects             | :   | No known significant effects or critical hazards.                  |
|                               |     |  |

#### Numerical measures of toxicity

| Acute toxicity estimates |              |  |
|--------------------------|--------------|--|
| Route                    | ATE value    |  |
| Oral                     | 484.16 mg/kg |  |

| Oral                | 484.16 mg/kg  |
|---------------------|---------------|
| Dermal              | 1386.55 mg/kg |
| Inhalation (vapors) | 13.87 mg/L    |
|                     |               |

| coefficient (Koc)    |                  |

**Other adverse effects** : No known significant effects or critical hazards.

### Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

### Section 15. Regulatory information

| Name                                     | Classification  |
|--|---|
| Toluene                                  | FLAMMABLE LIQUIDS - Category 2                                      |
|  | SKIN CORROSION/IRRITATION - Category 2                              |
|  | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A                    |
|  | TOXIC TO REPRODUCTION (Unborn child) - Category 2                   |
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) |
|  | - Category 3  |
|  | SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (hearing         |
|  | organs) - Category 2  |
|  | ASPIRATION HAZARD - Category 1                                      |
| Acetone                                  | FLAMMABLE LIQUIDS - Category 2                                      |
|  | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A                    |
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) |
|  | - Category 3  |
| Methanol                                 | FLAMMABLE LIQUIDS - Category 2                                      |
|  | ACUTE TOXICITY (oral) - Category 3                                  |
|  | ACUTE TOXICITY (dermal) - Category 3                                |
|  | ACUTE TOXICITY (inhalation) - Category 3                            |
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 1       |
| Naphtha (petroleum), hydrotreated heavy  | FLAMMABLE LIQUIDS - Category 2                                      |
|  | ASPIRATION HAZARD - Category 1                                      |
| 2-Butoxyethanol                          | FLAMMABLE LIQUIDS - Category 4                                      |
|  | ACUTE TOXICITY (oral) - Category 4                                  |
|  | ACUTE TOXICITY (dermal) - Category 4                                |
|  | ACUTE TOXICITY (inhalation) - Category 4                            |
|  | SKIN CORROSION/IRRITATION - Category 2                              |
|  | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A                    |
| n-Butyl acetate                          | FLAMMABLE LIQUIDS - Category 3                                      |
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) |
|  | - Category 3  |
| Solvent naphtha (petroleum), light arom. | FLAMMABLE LIQUIDS - Category 2                                      |
|  | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2B                    |
|  | ASPIRATION HAZARD - Category 1                                      |

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

#### State regulations

| Massachusetts | : The following components are listed: Toluene; Methanol; Acetone; 2-Butoxyethanol; n-<br>Butyl acetate                    |
|---------------|--|
| New York      | : The following components are listed: Toluene; Methanol; Acetone; n-Butyl acetate   |
| New Jersey    | <ul> <li>The following components are listed: Toluene; Methanol; Acetone; 2-Butoxyethanol; n-<br/>Butyl acetate</li> </ul> |
| Pennsylvania  | <ul> <li>The following components are listed: Toluene; Methanol; Acetone; 2-Butoxyethanol; n-<br/>Butyl acetate</li> </ul> |

#### California Prop. 65

**WARNING**: This product can expose you to chemicals including Toluene and Methanol, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings. ca.gov.

### Section 16. Other information

Procedure used to derive the classification

| Classification  | Justification         |
|---|-----------------------|
| FLAMMABLE LIQUIDS - Category 2  | On basis of test data |
| ACUTE TOXICITY (oral) - Category 4                                    | Calculation method    |
| ACUTE TOXICITY (dermal) - Category 4                                  | Calculation method    |
| ACUTE TOXICITY (inhalation) - Category 4                              | Calculation method    |
| SKIN CORROSION/IRRITATION - Category 2                                | Calculation method    |
| SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A                      | Calculation method    |
| TOXIC TO REPRODUCTION (Unborn child) - Category 2                     | Calculation method    |
| SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 1         | Calculation method    |
| SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - | Calculation method    |
| Category 3  |                       |
| SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (hearing organs) - | Calculation method    |
| Category 2  |                       |
| AQUATIC HAZARD (ACUTE) - Category 2                                   | Calculation method    |
