

Ring Size Chart

- 1 - Print out this pdf document. Make sure that your printer's 'scaling' options are off in order to ensure accuracy.
- 2 - Compare this printed 10cm scale below to an accurate ruler.

- 3 - Take an existing ring and select the matching ringsize below, the outer edge of the printed ring should just fit inside the actual ring.

Notable Factors

- if your ring falls between 2 sizes, select the larger size.
- time of day and temperature may affect finger size - measuring at night or on milder days is optimal.
- exercise, weightloss, water-retention are other factors to consider
- thickness of rings affect the comfort of the size.
- if a ring can be resized, it is always easier to resize down.

- 4 - Measuring at jewellers is always the most accurate means to determine size. There are many different scales used.
