

# ASSEMBLY INSTRUCTIONS FOR FRAMED CANVAS ART

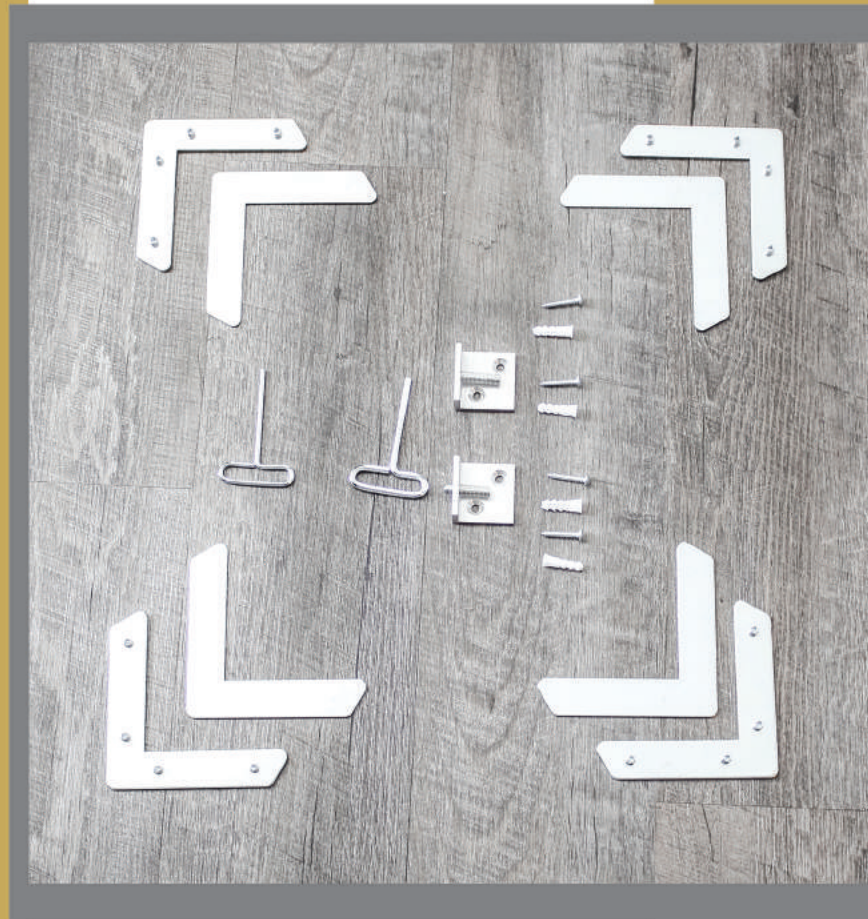

## STEP 1

### ASSEMBLING FRAME

01

Frame package arrives with:

- 4X Frame Segments
- 2X Allen Head Keys
- 4X Corner Assembly Joints (with Allen Head screws)
- 4X Corner Assembly Joints (flat)
- 2X Wall Mount Brackets
- 4X Wall Screws
- 4X Plastic Drywall Anchors (optional use)

02

Lay out the 4 frame pieces on the floor or a soft, smooth surface to avoid frame scratches.

03

Stack the Corner Assembly Joints together. Position the Joint with the screws on top.

04

Position the Joint with the screws on top.

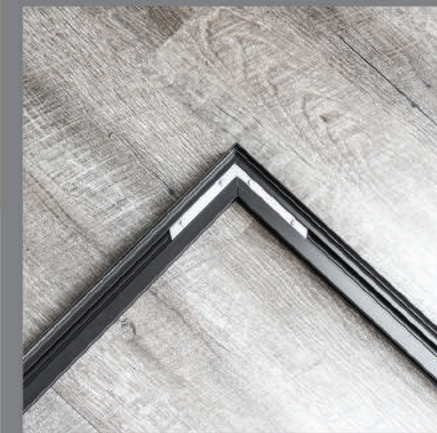

05

Insert the stacked Corner Assembly Joints into ends of each frame segment, but do not push segments fully together yet.

06

After all Corner Assembly Joints are inserted into place in frame segments, slide each frame segment together to join each other.

07

Ensure the corners are flush with no gaps between the union of frame segments.

08

Tighten all 4 Allen Head screws with supplied Allen Head Key for each frame segment. Once frame is fully assembled, proceed to instructions for INSTALLING CANVAS FABRIC.

# ASSEMBLY INSTRUCTIONS FOR FRAMED CANVAS ART

## STEP 2 INSTALLING CANVAS FABRIC

01

Notice silicone strip around edge of canvas fabric. This silicone strip inserts into assembled frame.

02

Position silicone strip pointing down into groove of frame. Use fingers to press silicone edge of canvas fabric into groove of metal frame to secure canvas in frame.

03

Travel along frame, inserting canvas silicone strip with fingers fully around frame.

04

Insert fabric completely until the print is evenly taut in the frame. Canvas will be perfectly stretched in frame.

05

Canvas is removable, if desired, by pulling small fabric tag in bottom right corner of canvas fabric.

06

Once canvas is fully inserted into assembled frame, proceed to instructions for MOUNTING FRAME ON WALL.

## STEP 3 MOUNTING FRAME ON WALL

01

Two Wall Mount Brackets are needed to hold one frame.

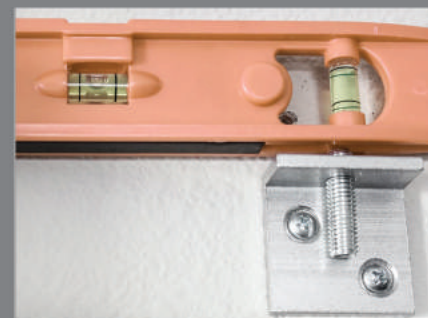

Frame arrives with 2 metal Wall Mount Brackets, 4 Wall Screws, and 4 optional Drywall Anchors. These additional tools are helpful: level, tape measure, hammer, pencil, screwdriver.

02

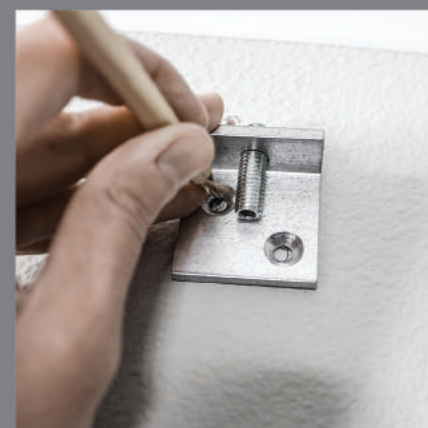

Position the Wall Mount Bracket on the wall.  
Use Allen Key to twist the screw up to protrude about 1 cm high from the top of the Bracket.

[support@artbyanaluca.com](mailto:support@artbyanaluca.com)

03

Option to place a level on top of bracket to ensure it is aligned straight on the wall.

04

Use a pencil to mark placement of the two screws.

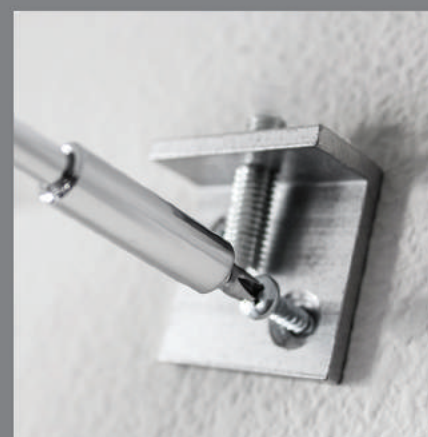

05

While holding the bracket in place on wall, use hammer to lightly tap one screw into your first marked position. Secure screw using a screwdriver to twist the screw fully into wall.

### OPTIONAL :

If you desire to use the supplied Drywall Anchors with the screws, use your screwdriver to create a hole in your wall. Hammer the Drywall Anchor into the hole. Then use a screwdriver to twist the screw into the Anchor. Anchors create added weight support by expanding inside the wall as the screw is inserted.

06

Insert second screw into your second marked position to secure other side of Bracket on wall.

## CARE INSTRUCTIONS FOR CANVAS ART

07

Repeat steps 2-5 for second Wall Mount Bracket, placed about 2 inches to the side of your first Bracket.

08

Hang the framed art by inserting the screws projecting up from the Wall Mounted Brackets under the rim of the frame. The frame has a groove designed to balance on the Bracket screws. Twist the screw of one or both Wall Mount Brackets up or down to adjust alignment of your hung frame as desired.

- ⊘ DO NOT machine wash fabric measuring over 8 ft (96") in each direction. Instead, wipe with a damp lint free cloth.
- ⊘ DO NOT store canvas tightly sealed or creased. Softly fold over original packaging material or roll.

Canvas fabric may be machine washed in cold water on a delicate cycle or dry-cleaned if preferred. Wash separate from other items.

Woolite detergent is recommended for washing canvas fabric.

Once wash is complete, tumble dry on low heat/ delicate setting.

Any wrinkles should subside after one day in the frame. A fabric steamer may be used if needed. DO NOT IRON.
