

Rings - How to find your size

Our rings are available in 6 sizes for both men and women. We have carefully considered the sizes offered to ensure a true unisex range, and are confident that within our sizes, you will find the right fit for you.

If you already have an idea of your ring size, please use our size guide to find your closest match. If you are in-between sizes, we recommend sizing up to the nearest size. Buying a ring sizer will always give you the most accurate results, but if you do not have access to a ring sizer, please use our printable ring sizer below.

Method 1 - Measure the diameter of a ring that fits you

This first method requires you to already have a ring that fits the finger you would like to wear your new ring on. To find your ring size, you will need to measure the internal diameter of the ring. You can do this by placing your ring on top of a ruler and taking the measurement from the internal centre left hand side to the internal centre right hand side. Take a look at the 'diameter' column on our size table and find your closest match in 'mm' to your measurement. We recommend sizing up if you are between sizes.

1. Get your ring and ruler

2. Measure the internal diameter

UK (Bohse size)	USA/CA	EU	Diameter (mm)	Circumference (mm)
L	6	51	16.5	51.2
N	7	54	17.3	53.8
P	8	56	18.2	56.3
R	9	58	19.0	58.9
T	10	61	19.8	61.4
V	11	64	20.6	64.0

3. Compare to size guide table

Method 2 - Print out our ring sizer

If you don't have a ring that fits you already, you can find out your closest ring size by printing out our ring sizer. Please follow the steps below to achieve the perfect fit.

- Print out this document on an A4 piece of paper. It is important that this guide is at **100% scale** to ensure accuracy.
- Measure the '5cm' line below, this will ensure your document is to scale. If it's not, try editing your printing settings to rescale the document and print again.
- Carefully cut out the ring sizer as well as the slot line indicated at the top (the dashed line).
- Once cut out, wrap it round your finger. You can adjust your ring sizer so that it fits comfortably on your finger.
- Finally, read the letter that has been indicated by the grey arrow. You have now found your ring size. Match this to our set letter sizes on our website and you are ready to order!

Important things to note:

- Make sure that the ring sizer can comfortably slide on and off the finger, just like a real ring.
- Avoid pulling your ring sizer too tight as this could give you an incorrect size. It should be a comfortable snug fit.
- Please note we will always recommend you purchase a ring sizer online for the most accurate results. This is an alternative method if you do not have access to a professional sizer.

UK (Sixthsaint size)	USA/CA	EU	Diameter (mm)	Circumference (mm)
L	6	51	16.5	51.2
N	7	54	17.3	53.8
P	8	56	18.2	56.3
R	9	59	19.0	58.9
T	10	61	19.8	61.4
V	11	64	20.6	64.0
