RING SIZE GUIDE

- To accurately determine your ring size, take a ring that already fits you comfortably.

- Align the inner circumference of your ring with the sizing circles provided below.

- When you've located the perfect match, only the white circle should be visible, with no grey showing within the confines of your ring.

- If you find yourself torn between two sizes, we suggest opting for the larger one.

To confirm the accuracy of your printout, place a banking card to ensure your page is correctly sized.
