

NutriStar Plumeria And All Flowering Tropicals

5-30-5 Bigger and More Blooms

WHERE TO USE

Use on flowering tropicals, including but not limited to candletrees, crotons, frangipanis, ground orchids, ixora, lei plants, Mexican firebush, peace lilies, plumbagos, plumeria, stephanotis and tree ferns.

WHEN TO USE: MARCH–SEPTEMBER

Apply NutriStar Plumeria food every 14 days during the growing season.

HOW TO USE

Plants in the ground: Distribute NutriStar Plumeria food evenly over planted area and water thoroughly after each application. Use at a rate of 1 cup per 10 sq. ft. and 3 cups per 100 sq. ft.

FEATURES

- Balanced ingredients encourage re-growth after pruning
- Specific micronutrients promote brilliant color
- Higher Phosphorous produces more blooms
- Added elemental Sulfur increases soil acidity
- Multiple sources of Phosphorous, including bone meal
- Feeds all flowering tropical plants

PLANTS IN CONTAINERS

| CONTAINER SIZE | APPLICATION QUANTITY |
|----------------|----------------------|
| 1 gallon | 2 teaspoons |
| 5 gallon | 2 tablespoons |
| 10 gallon | 3 tablespoons |
| 15 gallon | 4 tablespoons |

GUARANTEED ANALYSIS 5-30-5

Total Nitrogen (N) ... 5%

- 2.00% Ammoniacal Nitrogen
- 0.33% Nitrate Nitrogen
- 0.29% Urea Nitrogen
- 0.45% Slowly available water-soluble Nitrogen*
- 1.93% Water-insoluble Nitrogen

Available Phosphate (P₂O₅) ... 30%

Soluble Potash (K₂O) ... 5%

Derived from: triple super phosphate, bone and blood meal, ammonium sulfate, iron sulfate, magnesium sulfate, monoammonium phosphate, urea formaldehyde, potassium nitrate and potassium sulfate

**Derived from urea formaldehyde*

TRANSPLANTING

Thoroughly mix 1 cup per cubic foot of NutriStar Plumeria food into the soil. Place the plant(s) and water thoroughly after each application.
