

Classic Lashes

CLASSIC FUNDAMENTALS COURSE OUTLINE

M.INT has smaller and more intimate class sizes - even one-on-one training is available - which ensures that you, the student, are provided a more personal, detailed, and attentive training. This means that the trainer can see your progress and help you personally when needed as larger class sizes can get overwhelming. You will be receiving a comprehensive curriculum with extensive information and guidance to launch yourself into a career in the lash industry.

In our NALA accredited course, we teach you:

- Origin of lash extensions
- Eye functions and lash growth
- Reactions and how to tell if your client is allergic
- Safety, sanitation and health inspections
- Your lash space, ergonomics and how to care for yourself
- Lash Extension Application
- Lash Extension Removal
- Advanced lash techniques
- Advanced styling
- Business building
- And more

You will receive:

- M.INT Lashes Classic Fundamentals Online Course
- Classic Pro Kit
- Mannequin and practice lash strips for class in-use
- Lifetime mentor-ship
- Entry to our Graduates community
- 20% off all M.INT Lash Products
- Classic Lash Technician Certification

This two day course takes you through the manual presentation with a M.INT educator, it includes hands on demos, videos and reading assignments. You will work on your mannequin for the duration of the course and the second day you'll be working on your model.

The online portion of the course curriculum starts two weeks prior to prepare you for in studio training.

PRICE: \$1699
