

## Simple Tips to Make your baby's growth beautiful

Give lot of Room for movement. Let those little legs kick as much as they want. Movement plays a major role in a baby's development.

Keep talking. Yes you heard us right, talking and explaining everything you do to a baby helps to learn and absorb things faster.

As the baby grows up arrange their things neatly and in the most accessible way possible. Make them independent, there is nothing like watching a little one crawl their way to grab their own rattle from the shelf.

Each family member doing an everyday task like bathing or reading will help bonding with the baby and the baby gets to associate better with everyone.

Always limit the number of toys. Don't clutter their shelves or put toys together in a single toy box. Lay them out separately on shelves so that choosing the right toys becomes easier and joyful. Having a place for every toy makes clean up a lot simple and fun.

We engage passionate, skilled and exclusive artisans from various rural areas across India.

Organic and unprocessed Neem wood, organic glue, vegetable dye and organic colours - our materials says it all.

Our toys are simple yet enriching. Designed exclusively for babies (0-3yrs) keeping in mind their multitude of needs and developments.

**Wooden Puzzle**

## Wooden Puzzle

Puzzles are loved by everyone. The sense of satisfaction one gets after completing a puzzle is immense. Then why stop our little masters from solving one? These puzzles are designed with a very simple purpose to help them understand the concept of puzzle solving. This toy comes with benefits unlimited.

Puzzles aid hand eye coordination and helps with motor development (Fine and Gross). It boosts cognitive development and problem solving skills. The contrasting color will give clarity and isolates one shape from another.

Creativity is limitless, Puzzles can be used in various forms of pretend play.

## Quick Tips

Always introduce a new toy by playing along with the child.

As the child masters the preliminary way show several other possibilities of play.

Based on the elements of the puzzles you can branch into several topics of research, like learning shapes, learning colours, shapes of leaves, leaf & dino names, etc.

Clean with a dry cloth. Store in a moisture free area.

The toy is made with organic wood and non toxic paints. Hence when washed or exposed to moist areas, the paints will tend to wear off.
