every child's first toy

Instruction Manual

Pikler Arch

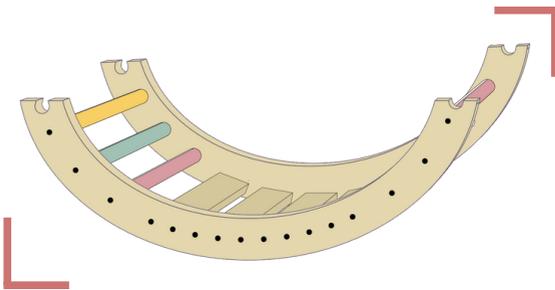

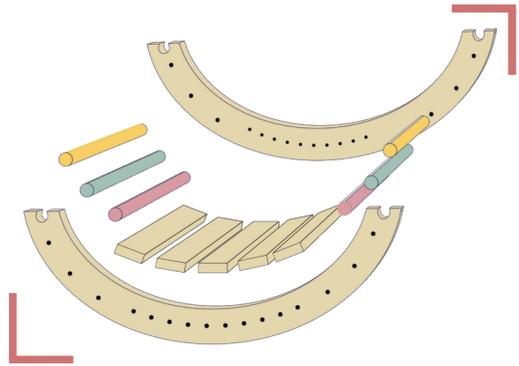

The package contains 14 parts along with screws and an allen key

Note

- We suggest 1 person to take charge of the assembly.
- Assembly takes 5 - 10 minutes.
- Unwrap the Pikler Arch parts and place them as shown in the image for convenient assembly.
- Mildly secure the screws. Tighten after you complete the assembly.
- Don't over tighten or twist rod

Step - 1

Place the arch sides (sides A&B) parallel to each other and position the rods and panels between the sides as shown in the illustration.

Step - 2

Use the screws & mildly secure the rods and panel to the Sides A & B with the allen key

Your Toddler's low shelf is ready for exploration.

Thank you for getting me home!
