

Instruction Manual

Tuk Tuk - The Tricycle

Note

- We suggest 1 person to take charge of the assembly.
- Assembly takes 4 - 5 minutes.
- Unwrap the Tuk Tuk parts and place them as shown in the image for convenient assembly.
- Secure all screws mildly during assembly. Tighten after you complete the assembly.

Step - 1

Insert the front wheelbase to tuk tuk base unit as shown in the picture.

Step - 2

Ensure it is completely inserted as shown in the picture

Step - 3

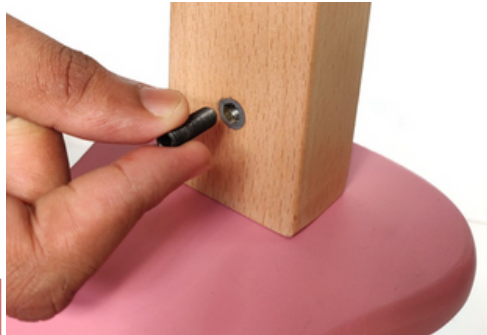

Insert the handlebar unit into the tuk tuk base unit as shown in the picture.

Note: ensure both the screw holes inline

Step - 4

Now use the short screw here

Step - 5

Using the small Allen key gently screw it

Step - 6

On completion it should look like this

Step - 7

Now place the backrest as shown in the picture and use the long screws here

Step - 8

Use the long screw and using Allen key gently secure it

Your Tuk Tuk is ready for the little one to
vroom around.

Thank you for getting me home!
